Hitler's Navy Gordon Williamson, 2022-02-03 A complete illustrated study of the German Kriegsmarine throughout World War II Hamstrung at first by the terms of the Treaty of Versailles during the 1930s the German Navy underwent a programme of rearmament in defiance of the restrictions building modern warships under limitations which forced technological innovation Submarines were strictly prohibited by the treaty and yet following years of covert development they became one of the Kriegsmarine's most deadly weapons Blooded in the Spanish Civil War the surface ships of the Kriegsmarine went on to play a crucial role in the opening salvos of World War II during the invasions of Poland and Norway although serious losses here set back plans for the invasion of Britain and by the end of the war only a handful of surface vessels remained to be divided up among the Allies From the beginning of the war but especially after the fall of France the dreaded and extraordinarily successful U boats stalked the Atlantic threatening vital British shipping convoys and choking off the lifeline of munitions and supply from the US Once Italy and Japan entered the war German naval operations expanded to the Mediterranean and the Indian Ocean This highly illustrated volume is a comprehensive study of the German Navy

throughout the war from pocket battleships to torpedo boats **Pictorial History of the German Navy in World War II**

Edward P. Hitler's Navy Jak Mallmann Showell, 2009-03-19 The German Navy both before the War and throughout the years of fighting was heavily outnumbered by the navies of Great Britain and the United States nonetheless it proved to be serious thorn in the sides of its adversaries The U boat war in the North Atlantic threatened the very liberation of Europe while the major warships posed a constant threat to the Allied shipping lanes This important reference book is an indispensable guide to the ships organisation command and rank structure and leaders of the Kriegsmarine and helps explain why it was such a

potent force A detailed text augmented by photos maps and diagrams studies the German Navy from the Treaty of Versailles to the collapse of the U boat offensive and the demise of the Third Reich After covering the background organisation and naval bases the author gives detailed descriptions of all the classes of ship from the battleships to motor torpedo boats and minesweepers The officers and sailors are covered along with their uniforms and awards and insignia Biographies of notable personalities and a chronology of the main naval events are included as well as appendices and a select bibliography Based on the author s 1979 title *The German Navy in World War Two* this is a classic work of reference for a new generation of readers

German Light Cruisers of World War II Gerhard Koop, Klaus-Peter Schmolke, 2014-07-22 An immensely interesting look at the Emden K nigsberg Karlsruhe K ln Leipzig and N rnbergships from drawing board to destiny War History Online The warships of the World War II era German Navy are among the most popular subject in naval history with an almost uncountable number of

books devoted to them However for a concise but authoritative summary of the design history and careers of the major surface ships it is difficult to beat a series of six volumes written by Gerhard Koop and illustrated by Klaus Peter Schmolke Each contains an account of the development of a particular class a detailed description of the ships with full technical details and an outline of their service heavily illustrated with plans battle maps and a substantial collection of photographs These have been out of print for ten years or more and are now much sought after by enthusiasts and collectors so this new modestly priced reprint of the series will be widely welcomed This volume is devoted to the six ships from Emden to Nürnberg that were built between the wars They were primarily intended for commerce raiding but the war gave them few opportunities for such employment although they did provide useful support for key naval operations in the Baltic and North Sea Two were lost in the 1940 Norway campaign but the remainder survived for most of the conflict A ship by ship history of the cruisers The text is supported by an excellent collection of plans and photographs Overall this is a very impressive history of a fairly unimpressive set of warships HistoryOfWar.org
