Small scale trade and smuggling are part of everyday life at many borders These trading activities often compensate for economic shortage that many households are suffering from in consequence of e g political transformation processes Despite of the diversity of transborder small scale trade and smuggling and their wide dispersion not only in Europe their reception within social sciences is relatively low The contributions shed therefore light on research in geography and neighboured disciplines On the basis of empirical research findings from borders all over the world the authors thrive to analyse mechanisms and conditions of the informal activities and to detect parallels and differences of informal economic structures from different perspectives This book is valuable reading for researchers in geography sociology ethnography and in political science *Kurdish Studies Archive* Martin van Bruinessen, 2024-11-18 Kurdish Studies Archive publishes the content of volumes 1 to 10 of Kurdish Studies This interdisciplinary and peer reviewed journal was dedicated to publishing high quality research and scholarship Since 2023 the journal has been continued as the new Kurdish Studies Journal published by Brill and focuses on research scholarship and debates in the field of Kurdish studies in a multidisciplinary fashion covering a wide range of topics including but not limited to economics history society gender minorities politics health law environment language media culture arts and education *Modern Arabic Literature* Reuven Snir, 2017-06-02 The study of Arabic literature is blossoming This book provides a comprehensive theoretical framework to help research this highly prolific and diverse production of contemporary literary texts Based on the achievements of historical poetics in particular those of Russian formalism and its theoretical legacy this framework offers flexible transparent and unbiased tools to understand the relevant contexts within the literary system The aim is to enhance our understanding of Arabic literature throw light on areas of literary production that traditionally have been neglected and stimulate others to take up the fascinating challenge of mapping out and exploring them *A Source Book for Irish English* Raymond Hickey, 2002-01-01 Accompanying CD ROM contains all the bibliographical items in this book along with self installing software necessary to process the databases and the annotations on a personal computer p 535 **When Languages Collide** Brian D. Joseph, 2003 *The Oxford Handbook of Irish English* Raymond Hickey, 2024 This volume offers a comprehensive overview of the range of varieties of English spoken on the island of Ireland It explores the historical background and structural features of Irish English alongside sociolinguistic considerations and will be of interest to readers in fields of varieties of English Irish studies and sociolinguistics **Tristan and Isolde** Gottfried von Strassburg, 2020-09-16 I believe this fluent accurate readable

translation of Tristan and Isolde will become the standard English edition of Gottfried's literary masterpiece. Wisely choosing not to recreate the end rhyme of the original, Whobrey has created a text that stays true to the original Middle High German while rendering it into modern English prose. The inclusion of Ulrich von Tu rheim's Continuation is a great strength of this book. For the first time, English speakers will be able to read Gottfried's work in tandem with Ulrich's and explore via Whobrey's discussion of Ulrich's sources the rich Tristan literary tradition in the Middle Ages and the ways in which Gottfried's achievement resonated well after his death. The footnotes provide helpful cultural, historical, and interpretive information, and Whobrey's Introduction offers a nice overview of Gottfried's biography, a discussion of Gottfried's important literary excursus, his place within the literature and genres of his time, and the source material for his Tristan. Particularly useful is Whobrey's discussion of the intricate and masterful structure of Gottfried's text. Scott Pincikowski, Hood College

The Grammar of Irish English Markku Filppula, 2002-01-04 Irish English, also termed Anglo Irish or Hiberno English, as in this book, is not usually perceived as having a grammatical system of its own. Markku Filppula here challenges this misconception and offers a descriptive and contact linguistic account of the grammar of Hiberno English. Drawing on a wide range of authentic materials documenting Hiberno English dialects past and present, Filppula examines the most distinctive grammatical features of these dialects, relationships with earlier and other regional varieties of English, the continuing influence of the Irish language on Hiberno English, similarities between Hiberno English and other Celtic-influenced varieties of English spoken in Scotland and Wales. *The Grammar of Irish English* is a comprehensive empirical study which will be an essential reference for scholars of Hiberno English and of value to all those working in the field of Germanic linguistics.

Violence, Culture and Identity Helen Chambers, 2006 This volume contains selected papers given at the conference Violence, Culture and Identity held at St Andrews University in 2003. It contributes to the debate on the role of culture in propagating, mediating, and controlling violence in society, concentrating on the relationship between culture and identity formation in Germany and Austria from the Middle Ages to the present. Bringing together the work of twenty-two scholars with expertise in different literary and historical periods, the volume probes the complexities of representations of violence enacted and suffered, of affirmative and non-affirmative violence in text and visual form, revealing the often blurred line between victim and victimizer. Violence in its discursive and material forms is investigated using the theoretical tools of sociology, post-colonial and gender studies, history, and psychology, as well as of literary criticism. The collection of essays focuses particularly on the relationship between war and identity, on 1970s terrorism and identity, on violence and the construction of gender, and on contemporary writing in German.
