## **Germany And The Use Of Force:**

**Germany and the use of force** Kerry Longhurst, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license While developments in the 1990s saw Germany move away from its rigidly prohibitive stance towards the use of force Berlin's policy in the war on terrorism suggested that Germany may be retreating into a new form of self imposed restraint In this first major English language study of German security policy after Iraq Kerry Longhurst considers the evolution of Germany's peculiar approach to the use of force after the Cold War through the conceptual prism of strategic culture The timeliness of this volume brings with it fresh analysis of the origins and substance of Germany's strategic culture which the author subsequently explores in a contemporary context against the background of the changing role of the Bundeswehr from 1990 2003 The book also provides unique and in depth analysis of Germany's troubled efforts at defense sector reform in the 1990s and considers the complex politics surrounding conscription *Police Use of Excessive Force in Germany* Laila Abdul-Rahman, Hannah Espín Grau, Luise Klaus, Tobias Singelstein, 2025-05-15

Excessive use of force by police officers in Germany has only been investigated to a limited extent to date This book provides comprehensive scientific findings on relevant situations and how they are dealt with under criminal law Based on a survey of victims with over 3 300 participants and more than 60 qualitative interviews the cases are presented as complex interactions in which the police's special power of definition becomes apparent **The Law of Armed Conflict and the Use of Force**

Frauke Lachenmann, Rüdiger Wolfrum, 2017 This volume collects articles on the law of armed conflict and the use of force from the Max Planck Encyclopedia of Public International Law to facilitate easy access to content from the leading reference work in international law *The Challenge of Conflict* Ustinia Dolgopol, Judith Gail Gardam, 2006 This collection is an integrated body of essays that provides a comprehensive range of viewpoints on how international legal and political mechanisms can address the catastrophic consequences of deadly conflict in today's world The authors are drawn from a diverse range of disciplines encompassing law peace studies international relations and criminal justice and include judges members of the military academics United Nations personnel and representatives of non government organisations **The**

**implementation of international law in Germany and South Africa** Mehrdad Payandeh, Silja Vöneky, Dire Tladi, Alexander Proelss, Patrick Vrancken, Leonie Hensgen, Engela Schlemmer, Wolfgang Durner, Lisa Chamberlain, Tumai Murombo, Nicola Wenzel, Lilian Chenwi, Kirsten Schmalenbach, Christopher Gevers, Bonolo Dinokopila, Matthias Herdegen, 2015-07-23 South Africa the power house of the African continent as well as Germany Europe's largest economic power are faced with an intricate maze of international obligations whether related to the United Nations the World Trade Organization the African Union or the European Union EU international human rights law international humanitarian law or any other sub regime of international law The two countries are in a different position when facing the implementation of this maze of obligations South Africa is a developing economy that faces various capacity challenges which at times also impact

the manner and extent to which it implements its international treaty obligations Germany on the other hand benefits from comparatively well funded institutes of international law and a well trained academic community which have contributed to the successful implementation of much of international law But as the relevant chapters in this volume show the German case is not without its own complexities As a result an exchange of ideas and experiences pertaining to the implementation of international obligations can prove fruitful for both countries Moreover such an exchange could also serve as a useful point of departure for other countries in Southern Africa that face similar challenges in relation to implementation The current book explores suitable techniques of implementation of international law by comparing South Africa with Germany After a general overview of the status of international law within Germany and South Africa respectively it focuses on the implementation of international instruments pertaining to key sub areas of international law in the two countries These include the United Nations Charter peace and security the international law of the sea international economic law international environmental law international human rights law international criminal law regional integration and the status of international judicial decisions before domestic courts Documents on Germany, 1944-1970 United States. Department of State. Historical Office, 1971 Documents on Germany, 1944-1985, 1985 **Germany Says "No"** Dieter Dettke, 2009-09-25 According to Dieter Dettke Germany's refusal to participate in the Iraq war signaled a resumption of the country's willingness to assert itself in global affairs even in the face of contradictory U S desires Germany Says No reviews the country's actions in major international crises from the first Gulf War to the war with Iraq concluding in contrast to many models of contemporary German foreign policy that the country's civilian power paradigm has been succeeded by a defensive structural realist approach Dettke traces the implications of this change for Germany's participation in multilateral institutions as well as bilateral relations with the U S France Russia China and India **A Latin American Guide to the International Court of Justice Case Law** Paula Wojcikiewicz Almeida, Júlia Rodrigues Costa de Serpa Brandão, Ananda Menegotto Weingärtner, 2016-12-14 This book provides an up to date and comprehensive analysis of Latin American cases brought before the International Court of Justice demonstrating state practices and litigation at the international level It does so by providing summaries of all contentious cases submitted by or against Latin American states before the Court in order to illustrate case law and is organized according to specific subjects to highlight the contribution of Latin American states to the peaceful settlement of disputes and to international law in general Furthermore the book is enhanced by informative tables and graphs detailing the participation of Latin American states and judges in cases presented before the International Court of Justice and includes a general and specific bibliography devoted to all the cases evaluated The chapters presented here fill existing gaps in the literature and will be of use to an international audience including academic libraries the judiciary both national and international practitioners of international law government institutions academics and students alike It will also be of interest to anyone investigating international dispute resolution particularly Latin American academics and

practitioners      *Use of Force · War and Neutrality Peace Treaties (A-M)* Rudolf Bernhardt, 2014-05-12 Encyclopedia of Public International Law 3 Use of Force War and Neutrality Peace Treaties A M focuses on hostile inter State relations and associated questions including the use of force war neutrality and peace treaties The publication first elaborates on the Munich Agreement mines militias military reconnaissance objectives necessity government and forces abroad mercenaries liberation movements land warfare intervention international military force indiscriminate attack and the Kellogg Briand Pact 1928 The text then ponders on humanitarian law and armed conflict flags and uniform in wars enemies and enemy subjects disarming of belligerents by neutrals demarcation line deserters economic warfare combatants contributions and contraband The book examines collective punishment measures security and self defense boundary settlements between Germany and her western neighbor states after World War II bombardment armistice arms control Asama Maru incident air warfare and alliance The text is a vital source of data for researchers interested in the use of force war and neutrality peace treaties

**The Use of Force in International Law** Nicholas Tsagourias, 2017-07-05 This volume of essays examines the development of political and legal thinking regarding the use of force in international relations It provides an analysis of the rules on the use of force in the political normative and factual contexts within which they apply and assesses their content and relevance in the light of new challenges such as terrorism weapons of mass destruction and cyber attacks The volume begins with an overview of the ancient and medieval concepts of war and the use of force and then concentrates on the contemporary legal framework regulating the use of force as moulded by the United Nations Charter and state practice In this regard it discusses specific issues such as the use of force by way of self defence armed reprisals forcible reactions to terrorism the use of force in the cyberspace humanitarian intervention and the responsibility to protect This collection of previously published classic research articles is of interest to scholars and students of international law and international relations as well as practitioners in international law

**National Security, Military Power & the Role of Force in International Relations** Army Library (U.S.), 1976      **Strategic Culture, Securitisation and the Use of Force** Wilhelm Mirow, 2016-04-14 This book investigates and explains the extent to which different liberal democracies have resorted to the use of force since the 9 11 terrorist attacks The responses of democratic states throughout the world to the September 2001 terrorist attacks have varied greatly This book analyses the various factors that had an impact on decisions on the use of force by governments of liberal democratic states It seeks to explain differences in the security policies and practices of Australia Canada France Germany and the UK regarding the war in Afghanistan domestic counterterrorism measures and the Iraq War To this end the book combines the concepts of strategic culture and securitisation into a theoretical model that disentangles the individual structural and agential causes of the use of force by the state and sequentially analyses the impact of each causal component on the other It argues that the norms of a strategic culture shape securitisation processes of different expressions which then bring about distinct modes of the use of force in individual security policy decisions While

governments can also deviate from the constraints of a strategic culture this is likely to encounter a strong reaction from large parts of the population which in turn can lead to a long term change in strategic culture This book will be of much interest to students of strategic culture securitisation European politics security studies and IR in general **The Political Use of Military Force in US Foreign Policy** James David Meernik, 2018-01-18 From the Quasi War with France and the opening of Japan to the numerous interventions of the 1990s these events have been situated at the heart of US foreign policy There are four different explanations as to why the US throughout its history has used military force just short of war Some scholars have suggested that nations use military force on behalf of security objectives Others have maintained that economic self interest has motivated many military interventions Recently many researchers have explored the extent to which the US has used force to promote democracy and human rights and still more scholars have argued that presidents use limited force for domestic political purposes Assessing the utility of each of these explanations throughout US history Meernik employs both historical narrative and statistical techniques to provide a comprehensive account of these important foreign policy events This engaging highly informative volume is particularly suited to scholars and students in the fields of international relations foreign policy military affairs and history The New York Times Current History ,1918

**Principles of International Criminal Law** Gerhard Werle, Florian Jeßberger, 2020-10-09 Principles of International Criminal Law is one of the most influential textbooks in the field of international criminal justice This fourth edition builds on the highly successful work of the previous editions setting out the general principles governing international crimes as well as the fundamentals of both substantive and procedural international criminal law It provides a detailed understanding of the sources and evolution of international criminal law demonstrating how it has developed and how its application has changed The book assesses in detail the four key international crimes as defined by the statute of the International Criminal Court genocide crimes against humanity war crimes and the crime of aggression The new edition revises and updates the work with developments in international criminal justice since 2014 It includes substantial new material on critical perspectives on international criminal justice the fragmentation of international criminal law new war crimes of prohibited means of warfare and the prosecution of crimes committed in Syria and Northern Iraq The book retains its highly acclaimed systematic approach and consistent methodology making it essential reading for both students and scholars of international criminal law as well as practitioners and judges working in the field *The Labor Force of the Soviet Zone of Germany and the Soviet Sector of Berlin* Samuel Baum, Jerry Walker Combs, 1959 The American Year Book ,1916 **International Law Situations** ,1918 **The outbreak of war** Great Britain. Foreign Office, 1926
