Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton:

The Geopolitics of Security in the Americas Martin Sicker, 2002 *The Geopolitics of Security in the Americas* Martin Sicker, 2001-11-30 Sicker examines the role of the United States within the Western Hemisphere and the geopolitical and geostrategic factors that have helped shape its policies in the region. He demonstrates that such factors have contributed heavily to establishing the patterns of state development and interstate relations in the Western Hemisphere throughout its modern history. The prevailing geopolitical environment has been conditioned to a large extent by the emergence of the United States as the unquestionably dominant power in the extensive region. However, that status did not exist at the time it achieved its independence. It was brought about through almost incessant conflict with and expansion at the expense of other states, nations, and peoples over more than a century. As a result, the concerns and interests of the dominant power became and remain of necessity factors that states beyond the borders of the United States must take into consideration when pursuing their own national interests and policies. As Sicker amply demonstrates, failure to do so will often produce undesirable consequences for the offending state. As is clear, however, the states of the hemisphere have their own geopolitical interests and concerns independent of and sometimes conflicting with those of the United States. As Sicker shows throughout the volume and especially in his analysis of inter-American conflicts, many of the nations of Latin America have unresolved territorial controversies with their neighbors that date to their origins as independent states. Because of this troubled geopolitical legacy, there have been numerous conflicts among the states of Latin America, some of which the United States has attempted to mediate or arbitrate and some that seem impervious to a permanent negotiated settlement. This is a provocative analysis that will be of interest to scholars, students, researchers, and policymakers involved with inter-American relations and U.S. diplomacy.

We May Dominate the World Sean A. Mirski, 2023-06-27 Kirkus 100 Best Non-Fiction Books of 2023 Finalist for the Council on Foreign Relations Arthur Ross Book Award. What did it take for the United States to become a global superpower? The answer lies in a missing chapter of American foreign policy with stark lessons for today. The cutthroat world of international politics has always been dominated by great powers. Yet no great power in the modern era has ever managed to achieve the kind of invulnerability that comes from being completely supreme in its own neighborhood. No great power that is except one: the United States. In *We May Dominate the World*, Sean A. Mirski tells the riveting story of how the United States became a regional hegemon in the century following the Civil War. By turns reluctant and ruthless, Americans squeezed their European rivals out of the hemisphere while landing forces on their neighbors' soil with dizzying frequency. Mirski reveals the surprising reasons behind this muscular foreign policy in a narrative full of twists, colorful characters, and original accounts of the palace coups and bloody interventions that turned the fledgling republic into a global superpower. Today, as China makes its own run at regional hegemony and nations like Russia and Iran grow more menacing, Mirski's fresh look at the rise of the American colossus offers indispensable lessons for how to meet the challenges of our

own century **The Monroe Doctrine in a Contemporary Perspective** Denneth M. Modeste, 2020-02-05 This book surveys the impact of the Monroe Doctrine on United States relations with Latin America with a particular focus on the Caribbean Basin since its proclamation in 1823 It explores the historical role of the Monroe Doctrine as the instrument to foreclose future European colonial adventures in the American hemisphere and to exclude from it any political system deemed to be incompatible with the American political tradition Modeste examines the elastic interpretations of the Monroe Doctrine to justify American territorial expansion and imperial ambitions premised on a strategic question the power controlling the Latin American Caribbean trade routes and Sea Lines of Communication Fundamental to the narrative is the linkage of the tenets of the Monroe Doctrine to contemporary local regional crises where governments have applied extraordinary extra constitutional measures to exercise control or achieve political ends mechanisms of peaceful conflict resolution failures and subversive elements that use unorthodox methods to threaten the integrity of the state Modeste also traces the transformation of the Monroe Doctrine from a unilateral policy declaration to a multilateral compact for the collective defence of the hemisphere **US Security Interests in the 'New Eastern Mediterranean'** Michalis Kontos, 2025-11-30 This book discusses US foreign and security policy in contemporary Eastern Mediterranean against the backdrop of the war in Ukraine and renewed great power competition It examines US relations with Turkey Greece and Cyprus and a balancing strategy in the region towards Russia The author assesses the impact on Eastern Mediterranean politics and US interests drawing on neorealist theories and the dynamics of an international system in transition and explores the impact of the global redistribution of power in regions which do not traditionally constitute top strategic priorities Contributing to discussions on great power balancing strategies and taking into consideration the transition to a post unipolar international system this book will appeal to scholars and students of international relations security studies US foreign and security policy great power and Mediterranean politics **Brazil, the United States, and the South American Subsystem** Carlos Gustavo Poggio Teixeira, 2012-07-30 The United States has often acted as an empire in Latin America Nevertheless there has been an obvious dissimilarity between U S actions in South America and U S actions in the rest of Latin America which is illustrated by the fact that the United States never sent troops to invade a South American country While geographic distance and strategic considerations may have played a role they provide at best incomplete explanations for the U S s relative absence south of Panama The fact that the United States has had a distinct pattern of interactions with South America is thus not captured by the typical concept of Latin America In Brazil the United States and the South American Subsystem Regional Politics and the Absent Empire Carlos Gustavo Poggio Teixeira recuperates the virtually neglected literature on regional subsystems In so doing Teixeira maintains that researchers of inter American relations would greatly benefit from a characterization reflecting actual regional realities more than entrenched preconceptions Such a characterization involves subdividing the Western Hemisphere in two regional subsystems North and

South America This subdivision allows for uncovering regional dynamics that can help explain the U S s limited interference in South American affairs compared to the rest of Latin America This book argues that the role of Brazil as a status quo regional power in South America is the key to understanding this phenomenon Through a historical analysis focusing on specific cases spanning three centuries this research demonstrates that Brazil regardless of particular domestic settings has deliberately affected the calculations of costs and benefits of a more significant US involvement in South America While in the past Brazil has taken actions that resulted in increasing the benefits of the U S s limited involvement in South America in more recent times it has sought to increase the costs of a more significant U S presence Teixeira then considers some of the theoretical and political implications of the framework laid out by this research Brazil the United States and the South American Subsystem is a groundbreaking investigation of U S Latin American relations and the politics of imperialism

Encyclopedia of United States National Security Richard J. Samuels, 2006 Covers the origin development and results of all major national security policies over the last seven decades A thoroughly interdisciplinary work the encyclopedia views national security from a historical economic political and technological perspective **Covert Regime Change** Lindsey A. O'Rourke, 2018-12-15 Lindsey A O Rourke is Assistant Professor of Political Science at Boston College Her research focuses on regime change international security and US foreign policy **The Institution of International Order** Simon Jackson, Alanna O'Malley, 2018-07-11 This volume delivers a history of internationalism at the League of Nations and the United Nations UN with a focus on the period from the 1920s to the 1970s when the nation state ascended to global hegemony as a political formation Combining global regional and local scales of analysis the essays presented here provide an interpretation of the two institutions and their complex interrelationship that is planetary in scale but also pioneeringly multi local Our central argument is that although the League and the UN shaped internationalism from the centre they were themselves moulded just as powerfully by internationalisms that welled up globally far beyond Geneva and New York City The contributions are organised into three broad thematic sections the first focused on the production of norms the second on the development of expertise and the third on the global re ordering of empire By showing how the ruptures and continuities between the two international organisations have shaped the content and format of what we now refer to as global governance the collection determinedly sets the Cold War and the emergence of the Third World into a single analytical frame alongside the crisis of empire after World War One and the geopolitics of the Great Depression Each of these essays reveals how the League of Nations and the United Nations provided a global platform for formalising and proliferating political ideas and how the two institutions generated new spectrums of negotiation and dissidence and re codified norms As an ensemble the book shows how the League of Nations and the United Nations constructed and progressively re fashioned the basic building blocks of international society right across the twentieth century Developing the new international history s view of the League and UN as dynamic complex forces the book demonstrates that both organisations should be understood

to have played an active role not just in mediating a world of empires and then one of nation states but in forging the many principles and tenets by which international society is structured Boundaries and Secession in Africa and International Law Dirdeiry M. Ahmed,2015-12-11 This book challenges a central assumption of the international law of territory The author argues that contrary to the finding in the Frontier Dispute case uti possidetis is not a general principle of law enjoining states to preserve pre existing boundaries on state succession It demonstrates that African state practice and opinio juris gave rise to customary rules that govern sovereign territory transfer in Africa It explains that those rules changed international law as it relates to Africa in many respects leading chiefly to creating norms of African jus cogens prohibiting secession and the redrawing of boundaries The book examines in depth the singularity of secession in Africa exploring extensive state practice and case law Finally it advances a daring argument for a right to egalitarian self determination addressing people to people domination in multi ethnic African states to serve as an exception to the fast special customary rule against secession **Journey to Indo-América** Geneviève Dorais,2021-08-12 An examination of how exile and transnational solidarity decisively shaped the formation of a major populist movement in Peru Geography and Politics Among Nations Martin Sicker,2010-06-01 Geography and Politics Among Nations is intended to assist the general reader to grasp the significance of geopolitical awareness in the conduct of foreign relations Toward this end the book begins with a cursory review of selected examples of geopolitical thought from antiquity to the present which illustrates some of the main tendencies in geopolitical thinking throughout history This survey of both past and recent geopolitical thinking is followed by a discussion of the intimate relationship between geographical and geostrategic considerations and realistic foreign policy and then continues with consideration of basic factors affecting geopolitical decision making such as the size of a state its configuration climate and often most critically its global and regional location This is followed by a discussion of the frontiers boundaries and borderlands that separate and define the territories of states and the impact on them of technological advancements which is then followed by an examination of the variety of territorial disputes among nations past and present many of which remain unresolved The book concludes with a brief discussion of some of the continuing and prospective geopolitical challenges that are likely to be confronted in the course of the present century **The Fate of Freedom Elsewhere** William Michael Schmidli,2013-07-12 During the first quarter century of the Cold War upholding human rights was rarely a priority in U S policy toward Latin America Seeking to protect U S national security American policymakers quietly cultivated relations with politically ambitious Latin American militaries a strategy clearly evident in the Ford administration s tacit support of state sanctioned terror in Argentina following the 1976 military coup d tat By the mid 1970s however the blossoming human rights movement in the United States posed a serious threat to the maintenance of close U S ties to anticommunist right wing military regimes The competition between cold warriors and human rights advocates culminated in a fierce struggle to define U S policy during the Jimmy Carter presidency In The Fate of Freedom Elsewhere

William Michael Schmidli argues that Argentina emerged as the defining test case of Carter's promise to bring human rights to the center of his administration's foreign policy. Entering the Oval Office at the height of the kidnapping, torture, and murder of tens of thousands of Argentines by the military government, Carter set out to dramatically shift U.S. policy from subtle support to public condemnation of human rights violation. But could the administration elicit human rights improvements in the face of a zealous military dictatorship rising Cold War tension and domestic political opposition? By grappling with the disparate actors engaged in the struggle over human rights, including civil rights activists, second-wave feminists, Chicano activists, religious progressives, members of the New Right, conservative Cold Warriors, and business leaders, Schmidli utilizes unique interviews with U.S. and Argentine actors as well as newly declassified archives to offer a telling analysis of the rise, efficacy, and limits of human rights in shaping U.S. foreign policy in the Cold War. *The European Union – A Global Actor?* Sven Bernhard Gareis, Gunther Hauser, Franz Kernic, 2012-12-07 Is the European Union a unified actor in world politics? The world's leading economic power is still struggling to find its role in shaping and maintaining global peace, free trade, and commerce. How successful is the EU's Common Foreign and Security Policy, and its institutions really

Politics Latin America Gavin O'Toole, 2014-05-12 This is a volume which will become invaluable to those attempting to guide the neophyte through the maze of politics in Latin America. *Journal of Latin American Studies*. **Politics Latin America** examines the role of Latin America in the world and its importance to the study of politics, with particular emphasis on the institutions and processes that exist to guarantee democracy and the forces that threaten to compromise it. Now in its second edition and fully revised to reflect recent developments in the region, **Politics Latin America** provides students and teachers with an accessible overview of the region's unique political and economic landscape, covering every aspect of governance in its 21 countries. The book examines the international relations of Latin American states as they seek to carve out a role in an increasingly globalised world and will be an ideal introduction for undergraduate courses in Latin American politics and comparative politics.

The United States of America and the Crime of Aggression Giulia Pecorella, 2021-05-24 This book traces the position of the United States of America on aggression, beginning with the Declaration of Independence up to 2020, covering the four years of the Trump Administration. The decision of the Assembly of States Parties to the International Criminal Court to activate the Court's jurisdiction over the crime of aggression in 2018 has added further value to a book concerning the position and practice of one of the most influential states, a global military power and permanent member of the UN Security Council. Organized along chronological lines, the work examines whether or to what extent the US position has evolved over time. The book explores how the definition of the crime can impact upon the US, notwithstanding its failure to ratify the Rome Statute. It also shows that the US practice and *opinio iuris* about the law applicable to the use of force might influence as it has done in the past, the law itself. The work will be a valuable guide for students, academics, and professionals with an interest in International Criminal Law. *An Independent Empire* Michael S. Kochin, Michael

Taylor,2020-01-24 Foreign policies and diplomatic missions combined with military action were the driving forces behind the growth of the early United States In an era when the Old and New Worlds were subject to British French and Spanish imperial ambitions the new republic had limited diplomatic presence and minimal public credit It was vulnerable to hostile forces in every direction The United States could not have survived grown or flourished without the adoption of prescient foreign policies or without skillful diplomatic operations An Independent Empire shows how foreign policy and diplomacy constitute a truly national story necessary for understanding the history of the United States In this lively and well written book episodes in American history such as the writing and ratification of the Constitution Henry Clay s advocacy of an American System Pinckney s Treaty with Spain and the visionary but absurd Congress of Panama are recast as elemental aspects of United States foreign and security policy An Independent Empire tells the stories of the people who defined the early history of America s international relationships Throughout the book are brief entertaining vignettes of often overlooked intellectuals spies diplomats and statesmen whose actions and decisions shaped the first fifty years of the United States More than a dozen bespoke maps illustrate that the growth of the early United States was as much a geographical as a political or military phenomenon Historical Dictionary of Inter-American Organizations David W. Dent,Larman C.

Wilson,2013-12-11 The Historical Dictionary of Inter American Organizations covers the changing world of inter American and international organizations that have played an important role in bilateral and multilateral efforts to solve a wide range of problems that have confronted the nations of the Western Hemisphere The Latin American region is clearly more integrated regionally and internationally than in previous decades and is better prepared to confront a broad range of problems trade development illicit drugs terrorism and guerrilla activity health environment democratization trade human rights intervention electoral assistance peacekeeping and conflict resolutions migration border conflicts corruption and energy independence that governments and non governmental organizations face in the 21st century The role of the United States in Latin America has clearly faded since the end of the Cold War and the second edition of this book fills a large void in explaining the complexities of inter American organizations and their activities since the first edition was completed in the late 1990s This updated second edition of Historical Dictionary of Inter American Organizations covers the history of through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Inter American Organizations

Neighborly Adversaries Michael J. LaRosa, Frank O. Mora, 2007 Providing a balanced and interdisciplinary interpretation this comprehensive reader traces the troubled U S Latin American relationship from the beginning of the nineteenth century to the post 9 11 period Thoroughly revised and updated the second edition includes original essays on critical issues such as immigration and the environment In addition a new section helps students understand the most

important themes and topics that unify and divide the United States and Latin American nations today The readings are framed by the editors opening chapter on the history of the relationship part introductions and abstracts for each selection Methodologically interdisciplinary yet comparative and historical in organization and structure this collection will benefit students and specialists of Latin America s complex historical social and political relationship with its northern neighbor

A Nation in Search of Its Nationhood Juan Manuel Pérez, 2023-11-16 When the Liberal Party reached power in Panama in 1912 it started a period that lasted until 1941 A period in which Panamanians due to the special circumstances under which the country became independent the presence of the United States and of thousands of foreign workers in its territory began to doubt and asked themselves if they were truly independent The American presence impacted politics and a sense of inferiority developed because people believed that nothing could be accomplished without the blessings of the United States In the middle of chaotic political scene and self doubt the country retreated to its Hispanic past and began an effort to Hispanize in the face of so much foreign presence and influence and tried to show the world that Panama was an independent country with history and traditions and not an appendage of the United States Belisario Porras who became president in 1912 emphasized the Hispanic past and built statues to Balboa and Cervantes Acci n Comunal founded in 1923 promoted nationalism and criticized the corrupt nature of politics It led a successful campaign against the 1926 Treaty and a coup in 1931 This new generation repudiated the generation that made the 1903 Treaty Panama for Panamanians became one of the catch phrases for the Panamanian youth of the 1920 s and 1930 s which found in the brothers Harmodio and Arnulfo Arias the leading exponents

If you ally obsession such a referred **Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton** ebook that will present you worth, acquire the agreed best seller from us currently from several preferred authors. Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In todays fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their

background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read

eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton is one of the best book in our library for free trial. We provide copy of Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton. Where to download Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton online for free? Are you looking for Geopolitics Of Security In The Americas Hemispheric Denial From Monroe To Clinton PDF? This is definitely going to save you time and cash in something you should think about.
