specimens had been lost to war and theft while others lay hidden in far flung collections overseen by secretive curators After traveling the equivalent of 3 3 times around the world with a series of oddball companions Chilton finally began to close in on every known specimen but not before he risked heavy metal poisoning in Russia swam naked in a glacier fed stream corresponded with a millionaire murderer and narrowly avoided arrest in New York City A magnificent blend of travel writing science detective work and mishap The Curse of the Labrador Duck is the zany adventure of one biologist s obsessive quest to uncover the mysteries of one of the world s most enigmatic birds
