Nephrology and Urology in the Aged Patient Dimitrios G. Oreopoulos, M.F. Michelis, S. Herschorn, 2012-12-06 The master tool of logic is the syllogism If A Band B C then it must follow as the night the day that A C If the major and minor premises are true or scientifically correct by current knowledge the conclusion is true or at least scientifically correct by current knowledge The demographer of today beams a clear message which if not true is at least scientifically correct by current knowledge In the first 80 years of the Twentieth Century the over 65 population of Americans increased eight fold By century s end it will have increased 12 fold and shortly thereafter will include one in five Americans While initially a fact of the developed world the pace of similar graying is accelerating even more rapidly in the Second and Third Worlds This gray delta constitutes about 35 million living Americans who may use one half or more of the health care resources A would have to be a lot more foolish than B if they failed to recognize that in the coming decade the causation case mix and area of the gray delta demands a change from early mid or even later century medicine If Homer Smith was right in saying We are what we are because we have the kind of kidneys we have and The kidneys make the stuff of philosophy then the who what where when and why the gray delta will be cared for must focus on the stuff of geriatric nephrology

Managing the Patient with Type II Diabetes Andrew L. Wilson, 1997 Managing the Patient with Type II Diabetes is made up of recent articles from Aspen s popular journal Pharmacy Practice Management Quarterly With diabetes ranking very high on the scale of diseases utilizing the most health care resources there is an increasing need to explore all avenues of managing the disease in a cost effective manner This book addresses medication use prescribing glucose monitoring patient compliance patient education nutrition and more

Anxiety Disorders John Vanin, James Helsley, 2008-06-19 Anxiety Disorders A Pocket Guide for Primary Care is designed to help the primary care practitioner recognize diagnose and manage anxiety disorders in a busy clinical practice The first

several chapters give an overview of anxiety and the anxiety disorders and provide the practitioner with practical information and techniques regarding the psychiatric evaluation and mental status examination in a primary care practice. Extremely effective modalities are available for the management of common mental disorders including the anxiety disorders. The goal of treatment is not simply improvement but remission of symptoms and restoration of function. The Pocket Guide includes helpful chapters on psychopharmacology, psychopharmacotherapy, and psychologic treatment for the anxiety disorders.
