German Armored Cars And Reconnaissance Halftracks 1939-1945:

German Reconnaissance and Support Vehicles, 1939-1945 Paul Thomas, 2018-09-30 This WWII pictorial history illustrates the full range of Nazi vehicles used in reconnaissance and support missions throughout the war. The German military used reconnaissance and support vehicles widely in the Second World War. This book illustrates the full range of these vehicles with authoritative information and more than 200 rare wartime photographs. Both tracked and wheeled vehicles were employed for reconnaissance and screening. These included light tanks such as the Panzer I and Panzer II armored cars such as the six and eight wheeled *Schwerer Panzerspähwagen* and motorcycles such as the famous BMW R75 or the Zundapp KS750. In addition to their recon role they would on occasion engage similar light units. Support vehicles such as the tracked Sd Kfz 2 Kettenkrad and the renowned Sd Kfz 251 halftracks were used in the follow up role frequently with mounted grenadiers to mop up over run enemy positions. *German Armoured Cars* Bryan Perrett, 1982 [German](#)

[Half-Tracks and Wheeled Vehicles](#) Alexander Ludeke, 2015 Every vehicle is presented with a short description, images and a reference table of key technical data supplemented by colour drawings with camouflage and identification numbers. Back cover

German Armoured Cars and Reconnaissance Half-Tracks 1939-45 Bryan Perrett, 1999-09-01 Flexibility, mobility and the ability to effectively communicate were all key requirements that the units operating armoured cars and reconnaissance half tracks demanded and that were also crucial to the Panzerwaffe and German Army as a whole. Bryan Perrett's treatment of the development and history of German armoured cars and reconnaissance vehicles fully accounts for the crucial role that such units and more importantly their vehicles played during the course of World War II. Full orders of battle are also given along with technical details and specifications of the vehicles assigned to particular units. **The Complete**

Guide to German Armored Vehicles David Doyle, 2019-05-07 The market's most comprehensive guide to German combat vehicles. The Complete Guide to German Armored Vehicles is an encyclopedia of all the armored vehicles used by the Nazis in World War II. At over four hundred pages and with over six hundred photos, many of which have never before been seen by the public, this volume becomes the market's most comprehensive on the subject. David Doyle, award-winning author of dozens of books on the subject, provides mechanical information, photos and usage history for Armored cars, Half tracks, Tanks, Assault guns, Jagdpanzers, Panzerjagers, Self propelled guns, howitzers and mortars, Flakwagens, Flammpanzers, Recovery vehicles, Armored Engineer vehicles. An encyclopedic resource by an authority on the subject. The Complete Guide to Armored Vehicles is a must have for modelers, gamers and WWII buffs alike. **7056** Frank V. De Sisto, I. Baxter, Laurent Lecocq, 2006

Pakwagen SDKFZ 234/3 and 234/4 Heavy Armoured Cars Dennis Oliver, 2024-01-05 squeezes a lot of useful information into a modest 64 pages and is a useful addition to any library of German armored cars. War Wheels Experience in the Polish and French campaigns had convinced the German high command of the value of fast moving armed reconnaissance vehicles. But it was realised that many of the early designs were too lightly armed and development of a

heavy eight wheeled prototype resulted in the Sdkfz 234 series of armored cars the first of which entered service in late 1943 Built by the firm of Büssing NAG these sturdy and reliable vehicles were gradually up armed and served in the infantry support role and eventually as tank killers largely as the result of Hitler's desperation to arm as many vehicles as possible with anti tank weapons Drawing on official documentation and unit histories Dennis investigates the formations that operated these vehicles and uses archive photos and extensively researched color illustrations to examine the markings camouflage and technical aspects of the Sdkfz 234 2 234 3 and 234 4 armored cars that served on the Western and Eastern Fronts in the last months of the war A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeller needs to recreate an accurate representation of these historic vehicles 7054 Frank V. De Sisto, I Baxter, 2004-09-15 [SdKfz 251 Half-Track 1939-45](#) Bruce Culver, 2012-07-20 Following in the best traditions of German ingenuity in design and construction of armoured vehicles the SdKfz 251 firmly realised the concept of a competent cross country tactical vehicle for armoured infantry units So successful was this half track that not only did a modified version of it remain in use with Czech forces well into the 1980s but also ironically the armoured infantry tactics that the Germans pioneered with it were adopted by Allied forces in the Second World War and helped them to achieve the eventual defeat of Germany This book covers the genesis and development of the SdKfz 251 and details the numerous modifications and variations that sprang from combat experience

SDKFZ 251 - 251/9 and 251/22 Kanonenwagen Dennis Oliver, 2021-01-18 The Sdkfz 251 halftrack was one of the most versatile armored vehicles produced by either side in the Second World War Designed by the firm of Hannoversche Maschinenbau AG or Hanomag production ran to over 15 000 vehicles and it was eventually built as twenty three separate variants serving as not only a personnel carrier but also a command vehicle mobile rocket launcher armored ambulance and bridge layer In his first book in the LandCraft series Dennis Oliver examines the Sdkfz 251 variants armed with the 7 5cm gun initially used as an infantry support and reconnaissance halftrack and later as a tank killer as the result of Hitler's desperation to arm as many vehicles as possible with antitank weapons Drawing on official documentation and unit histories Dennis investigates the formations that operated these deservedly famous vehicles and uses archive photos and extensively researched color illustrations to examine the markings camouflage and technical aspects of the Sdkfz 251 9 and 251 22 halftracks that served on the Western and Eastern Fronts in the last months of the war A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeler needs to recreate an accurate representation of these historic tanks **German 251**

234/2 Heavy Armoured Cars Dennis Oliver, 2023-07-30 a well researched title that covers a lesser known type and that manages to squeeze a heck of a lot into 64 pages WarWheels The lightning advances of the German armored units during the Polish and French campaigns were spearheaded by fast moving armed reconnaissance vehicles But these early designs suffered heavily due to their light weaponry and thin armor and a program was soon underway led by the firm of Büssing NAG which culminated in the development of the Sdkfz 234 series of heavy eight wheeled armored cars the first of which entered service in late 1943 These vehicles proved to be rugged and reliable and were gradually up armed to serve in the infantry support role and eventually as tank killers This volume of the LandCraft series concludes the story of the Sdkfz 234 series examining the versions that took part in the last battles of the war Using archive photos and extensively researched color illustrations Dennis Oliver examines the Sdkfz 234 1 and Sdkfz 234 2 and the units that operated these often neglected yet important armored vehicles A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeler needs to recreate an accurate representation of these historic tanks *German Support Vehicles on the Battlefield* TOM.

COCKLE, 2021-05-31 This volume will present the reader with photographs of a variety of motorized transport vehicles including cars and trucks armored cars and half tracks both armored and unarmored used by the German Wehrmacht during World War II along with some captured enemy vehicles that were pressed into service This hardcover landscape format book's brief introduction is followed by more than one hundred mainly unpublished photographs printed in the highest possible quality Both the introduction and the captions are bilingual English Hungarian German Armored Cars David Doyle, 2012
