German Connection New Zealand And German Speaking Europe In The Nineteenth Century:

The German Connection James N. Bade,1993 The German connection with New Zealand during the nineteenth century is an important part of New Zealand's heritage but for various reasons it has remained a neglected part of New Zealand history James Bade and his team of contributors seek to redress the balance with this generously illustrated volume which examines not only early German settlement but also the contribution of German and Austrian scientists artists musicians businessmen and missionaries to the New Zealand way of life New Zealand and Europe ,2016-08-29 This book is one of first

comparative studies of the cultural political and economic interactions between New Zealand and Europe The chapters that comprise this book are a deliberate exercise in variety inside the theme of New Zealand and Europe Connections and Comparisons They derive from the first conference of the New Zealand European Studies Association and give a flavour of the active and far reaching nature of studies relating to Europe currently taking place in New Zealand The cultural and historical chapters while often quite specific in focus touch on themes of universal cross cultural relevance the fate of imported languages and cultures the tendencies to familiarise or exoticise unknown lands the problematic representation of women in politics the ambivalences and tensions between dominant and subordinate cultures and the responsibility of the intellectual in the face of authority **Germans as Minorities during the First World War** Panikos Panayi,2016-04-15

Offering a global comparative perspective on the relationship between German minorities and the majority populations amongst which they found themselves during the First World War this collection addresses how public opinion the press parliament and ordinary citizens reacted towards Germans in their midst The volume uses the experience of Germans to explore whether the War can be regarded as a turning point in the mistreatment of minorities one that would lead to worse manifestations of racism nationalism and xenophobia later in the twentieth century Intergenerational Consequences of Lifestyle Migration Irmengard K. Wohlfart,2016-12-31 This book explores the adaptation processes of German speaking immigrants and their descendants into New Zealand's predominantly Anglophone society Specifically it considers the experiences and long term consequences of the migration of more affluent European immigrants to New Zealand where migration was predominantly a lifestyle choice A comprehensive four year study adds insights into the social integration and assimilation processes of the immigrants and their descendants including intercultural marriage behaviour work and educational achievements and community enrichments It also considers the institutional and social reception of these immigrants and their children in New Zealand and the effects these have had on them Nexus Analysis reveals that strong motives for lifestyle migration enabled the immigrants to cope with unexpected institutional setbacks in New Zealand and finds both shifts and maintenance in language and culture and explores feelings of belonging and identities across three generations **Fictions of Migration in Contemporary Britain and Ireland** Carmen Zamorano Llana,2020-04-30 This

book examines how the transcultural and transnational migration of people texts and ideas has transformed the paradigm of

national literature with Britain and Ireland as case studies The study questions definitions of migration and migrant literature that focus solely on the work of authors with migrant backgrounds and suggests that migration is not extraneous but intrinsic to contemporary understandings of national literature in a global context The fictional work of authors such as Caryl Phillips Colum McCann Abdulrazak Gurnah Rose Tremain Elif Shafak and Evelyn Conlon is analysed from a variety of perspectives including transculturality cosmopolitanism and Afropolitanism so as to emphasise how their work fosters an understanding of national literature as well as of individual and collective identities based on transborder interconnectivity *The Origins of an Experimental Society* Erik Olssen, 2025-04-10 In this major work one of our leading historians offers a new account of the origins of New Zealand how Pakeha settlers a Better Britain While both experiments were first conceived by savants and philosophers they gained ongoing support by lodging in the hearts and minds of the settlers whalers and missionaries mothers and farmers In turn Maori adapted these new ideas to their own ends giving up slavery and inter tribal warfare and adapting the institutions of the colonisers in ways that would re define the experiments This then is an ethnography of tangata Pakeha a people of European descent changed by their encounters with tangata Maori and their land just as Maori were themselves changed and the story of the society they built together Ranging across intellectual and cultural history from the beach at Paihia to the coffee houses of Paris Olssen enables us to understand the origins of New Zealand anew

The Varieties of Temporal Experience Michael D. Jackson, 2018-04-10 What does it mean to live in time between the unforeseeable and the irreversible In *The Varieties of Temporal Experience* Michael Jackson demonstrates the significance of a phenomenology of time for ethnography philosophy and history through a multifaceted consideration of the gap between our cultural representations of temporality and the bewildering multiplicity of our experience of being in time Jackson explores temporality in a subjective mode as a form of literary anthropology The first part of the book tells the story of John Joseph Pawelka whose 1910 escape from prison and subsequent disappearance became one of New Zealand's great unsolved mysteries discussing what it reveals about the interplay of popular stories hidden histories and media narratives in constructing allegories of national and moral identity In the second Jackson reflects on journeys up and down the islands of New Zealand touching on the ways that personal stories are interwoven with social and historical events Throughout this groundbreaking book Jackson juxtaposes philosophy history and ethnography in an attempt to do justice to the extraordinary variety of temporal experience at the same time exploring the ethical and existential quandaries that arise from the complexity of lived time *Book & Print in New Zealand* Douglas Ross Harvey, K. I. D. Maslen, Penny Griffith, 1997 A guide

to print culture in Aotearoa the impact of the book and other forms of print on New Zealand This collection of essays by many contributors looks at the effect of print on Maori and their oral traditions printing publishing bookselling libraries buying and collecting readers and reading awards and the print culture of many other language groups in New Zealand **Making Peoples** James Belich, 2002-02-28 Now in paper This immensely readable book full of drama and humor as well as

scholarship is a watershed in the writing of New Zealand history In making many new assertions and challenging many historical myths it seeks to reinterpret our approach to the past Given New Zealand s small population short history and great isolation the history of the archipelago has been saddled with a reputation for mundanity According to James Belich however it is just these characteristics that make New Zealand a historian s paradise a laboratory whose isolation size and recency is an advantage in which the grand themes of world history are often played out more rapidly more separately and therefore more discernably than elsewhere The first of two planned volumes *Making Peoples* begins with the Polynesian settlement and its development into the Maori tribes in the eleventh century It traces the great encounter between independent Maoridom and expanding Europe from 1642 to 1916 including the foundation of the Pakeha the neo Europeans of New Zealand between the 1830s and the 1880s It describes the forging of a neo Polynesia and a neo Britain and the traumatic interaction between them The author carefully examines the myths and realities that drove the colonialization process and suggests a new living version of one of the most critical and controversial documents in New Zealand s history the Treaty of Waitangi frequently described as New Zealand s Magna Carta The construction of peoples Maori and Pakeha is a recurring theme the response of each to the great shift from extractive to sustainable economics their relationship with their Hawaikis or ancestors with each other and with myth Essential reading for anyone interested in New Zealand history and in the history of new societies in general *God's Messenger* Peter H. Oettli, 2008 *God s Messenger* is a new biography of the North German missionary Rev J F Riemenschneider who settled in the Taranaki region in the first half of the nineteenth century The book places him into the historical and social context which not only illuminates his life and work but throws new light on aspects of nineteenth century New Zealand history The book outlines Riemenschneider s upbringing in North Germany his arrival in New Zealand and setting up of a missionary station in Taranaki rifts between the missionary and his people his exile from Taranaki and setting up in Otago Publisher **Historical Dictionary of Switzerland** Leo

Schelbert, 2014-05-21 Switzerland s exceptional scenic beauty of valleys lakes and mountains its central location on international trade routes and its world famous banking system are just a few elements that have contributed to its rise in the global market It consists of twenty six member states called cantons and it s actively engaged in the maintenance of peace among nations The history of the Swiss Confederation is as rich and varied as its culture and people This updated second edition of *Historical Dictionary of Switzerland* features the nation s multicultural and democratic traditions and institutions its complex history and its people s involvement in past and present world affairs This is done through a list of abbreviations and acronyms a chronology an introduction appendixes maps a bibliography and over 500 cross referenced dictionary entries on important persons places events and institutions as well as significant political economic social and cultural aspects This book is an excellent access point for students researchers and anyone who wants to know more about Switzerland

Replenishing the Earth James Belich, 2011-05-05 Pioneering study of the anglophone settler boom in North America

Canada South Africa Australia and New Zealand between the early 19th and early 20th centuries looking at what made it the most successful of all such settler revolutions and how this laid the basis of British and American power in the 19th and 20th centuries

Fairness and Freedom David Hackett Fischer, 2012-02-10 From one of America's preeminent historians comes a magisterial study of the development of open societies focusing on the United States and New Zealand

Settlers Jock Phillips, Terry Hearn, 2013-10-01 Analyzing everything from shipping records to death registers this book takes an in depth look at New Zealand's European ancestors exploring the origins of the island's national identity Using individual examples of immigrants and their families it examines their geographical origins their occupational and class backgrounds and their religion and values to get a better understanding of the lives and motivations of New Zealand's first settlers

Born to a Changing World Alison Clarke, 2012 Emerging from diaries letters and memoirs the voices of this remarkable book tell a new story of life arriving amidst a turbulent world Before the Plunket Society before antibiotics before safe Caesarean sections and registered midwives nineteenth century birthing practice in New Zealand was typically determined by culture not nature or the state Alison Clarke works from the heart of this practice presenting a history balanced in its coverage of social and medical contexts Connecting these contexts provides new insights into the same debates on childhood from infant feeding to maternity care that persist today Tracing the experiences of Māori and Pākehā birth ways this richly illustrated story remains centered throughout on birthing women their babies and families this is their history

Paradise Reforged James Belich, 2002-02-28 Paradise Reforged picks up where Making Peoples left off taking the story of the New Zealanders from the 1880s to the end of the twentieth century It begins with the search for Better Britain and ends by analyzing the modern Māori resurgence the new Pākehā consciousness and the implications of a reinterpreted past for New Zealand's future Along the way the book deals with subjects ranging from sport and sex to childhood and popular culture Critics hailed Making Peoples as brilliant and the most ambitious book yet written on New Zealand's past Paradise Reforged its successor adopts a similarly incisive original sweep across the New Zealand historical landscape in confronting the myths of the past That some of its themes are uncomfortably close to the present makes the result all the more fascinating

Keeping a Low Profile Brigitte Bönisch-Brednich, 2002 This oral history of German immigration to New Zealand is based on extensive field research including 102 life history interviews and in depth study of archival sources and secondary literature Issues of national and individual identity are also addressed

Imperial Co-operation and Transfer, 1870-1930, 2015-08-27 Conflict and competition between imperial powers has long been a feature of global history but their co operation has largely been a peripheral concern Imperial Co operation and Transfer 1870 1930 redresses this imbalance providing a coherent conceptual framework for the study of inter imperial collaboration and arguing that it deserves an equally prominent position in the field Using a variety of examples from across Asia Europe and Africa this book demonstrates the ways in which empires have shared and exchanged their knowledge about imperial governance including

military strategy religious influence and political surveillance It asks how when and where these partnerships took place and who initiated them Not only does this book fill an empirical gap in the study of imperial history it traces ideas of empire from their conception in imperial contact zones to their implementation in specific contexts As such this is an important study for imperial and global historians of all specialisms *James Dilworth* R. C. J. Stone, 1995 The life of the man whose name lives on in the Dilworth Trust Board is described in this book from his origins in Ulster to his active life in Auckland His activities in provincial politics the trustee savings bank movement church affairs the agricultural and pastoral society and education are all included Fully illustrated including colour plates The author is an Emeritus Professor of Auckland University **New Zealand Slavonic Journal** ,2003
