Kriegsmarine and helps explain why it was such a potent force. A detailed text augmented by photos, maps and diagrams studies the German Navy from the Treaty of Versailles to the collapse of the U-boat offensive and the demise of the Third Reich. After covering the background, organisation and naval bases, the author gives detailed descriptions of all the classes of ship from the battleships to motor torpedo boats and minesweepers. The officers and sailors are covered along with their uniforms and awards and insignia. Biographies of notable personalities and a chronology of the main naval events are included as well as appendices and a select bibliography. Based on the author's 1979 title *The German Navy in World War Two*, this is a classic work of reference for a new generation of readers. *German Capital Ships of the Second World War* Siegfried Breyer, Miroslaw Skwiot, 2012-05-02. Outstanding covers the major units starting with the Deutschland Class through the Scharnhorst and Gneisenau to the Bismarck and Tirpitz. WW2 Cruisers. The Kriegsmarine's capital ships Deutschland, Admiral Scheer, Graf Spee, Scharnhorst, Gneisenau, Bismarck and Tirpitz continue to generate intense interest among warship enthusiasts despite the fact that no new source of information has been unearthed in decades. What has come to light, however, is a growing number of photographs, many from private albums and some that lay forgotten in obscure archives. These include many close-ups and onboard shots of great value to modelmakers as well as rare action photos taken during wartime operations. This book is a careful selection of the best of these but on a grand scale with around one hundred images devoted to each ship, allowing in-depth coverage of its whole career from launching and fitting out to whatever fate the war had waiting for it. For sake of completeness there are even sections reproducing the various design studies that led to each class while an appendix covers the uncompleted Graf Zeppelin, Germany's only attempt to build an aircraft carrier, the vessel which clearly displaced the battleship as the capital ship of the world's navies during the war. Essays on technical backgrounds and design origins by the well-known expert Siegfried Breyer and explanatory captions by Miroslaw Skwiot draw out the full significance of this magnificent collection of photos. Highly recommended for those who wish to admire seven of the most magnificent warships built anywhere in the twentieth century. We will certainly never see their like again. Journal of the Australian Naval Institute. *Ships' Data, U. S. Naval Vessels, 1911-* United States. Navy Department, 1935. *WORLD WAR TWO SEA WAR* Donald A.
