German Poster Telling The Time:

Fear in the German-Speaking World, 1600-2000 Thomas Kehoe, Michael Pickering, 2020-02-20 This book addresses the nature and role of fear in the German world from the early modern period through to the 20th century Offering the first collection that centres fear in the historical analysis of central Europe since 1600 these essays demonstrate the importance of emotional experience to the study of the past Fear has been at the centre of many of the most important historical events in this region witch hunts religious conflicts invasions and ultra nationalism in the form of the Nazi regime This book explores ways in which fear was understood developed and negotiated throughout these historical contexts and how people of the German world coped with it From the fear of vampires to the loss of national sovereignty pestilence gypsies and criminals Fear in the German Speaking World 1600 2000 draws connections between cases over a period of 400 years and considers fear alongside the history of emotions more generally In doing so the chapters reveal a complex evolving construction of fear that is universally human but also dependent upon its cultural and historical context The Poster, 1910 **The World Tomorrow**, 1919 **Visual Merchandising** Louisa Iarocci, 2017-07-05 Situated at the crossroads of visual culture and consumerism this essay collection examines visual merchandising as both a business and an art It seeks to challenge that scholarly ambivalence that often celebrates the spectacle but denies the agenda of consumerism The volume considers strategies in the imaging of selling from the mid nineteenth century to the present in terms of the visual interaction that occurs between the commodity and the consumer and between body and space Under the categories of Promotion Product and Place contributors to the volume examine the strategies in the presentation of retail goods and environments that range from print advertising to product design to store display and architecture Visual Merchandising The Image of Selling is located directly at the nexus of business practice and cultural myth where the spectator never loses sight of their status as buyer and the object of desire is always still a commodity *Industrial Psychology*, 1927 *Collecting Prints, Posters, and Ephemera* Ruth E. Iskin, Britany Salsbury, 2019-12-12 Why did collectors seek out posters and collect ephemera during the late nineteenth and the twentieth centuries How have such materials been integrated into institutional collections today What inspired collectors to build significant holdings of works from cultures other than their own And what are the issues facing curators and collectors of digital ephemera today These are among the questions tackled in this volume the first to examine the practices of collecting prints posters and ephemera during the modern and contemporary periods A wide range of case studies feature collections of printed materials from the United States Latin America France Germany Great Britain China Japan Russia Iran and Cuba Fourteen essays and one roundtable discussion all specially commissioned from art historians curators and collectors for this volume explore key issues such as the roles of class politics and gender and address historical contexts social roles value and national and transnational aspects of collecting practices The global scope highlights cross cultural connections and contributes to a new understanding of the place of prints posters and ephemera

familiar figure in the German landscape selling everything from soap to shirts to coffee The racialization of black figures first
associated with the American minstrel shows that toured Germany found ever greater purchase in German advertising up to
and after 1905 when Germany waged war against the Herero in Southwest Africa The new reach of advertising not only
expanded the domestic audience for German colonialism but transformed colonialism's political and cultural meaning as well

Arrived Elisabeth H. Kinsley,2019-02-25 In this book Elisabeth H Kinsley weaves the stories of racially and ethnically distinct
Shakespeare theatre scenes in late nineteenth and early twentieth century Manhattan into a single cultural history revealing
how these communities interacted with one another and how their work influenced ideas about race and belonging in the
United States during a time of unprecedented immigration As Progressive Era reformers touted the works of Shakespeare as
an antidote to the linguistic and cultural mixing of American society and some reformers attempted to use the Bard's plays to
Americanize immigrant groups on Manhattan's Lower East Side immigrants from across Europe appropriated Shakespeare
for their own ends Kinsley uses archival material such as reform era handbooks theatre posters playbills programs sheet
music and reviews to demonstrate how in addition to being a source of cultural capital authority and resistance for these

communities Shakespeare's plays were also a site of cultural exchange Performances of Shakespeare occasioned nuanced social encounters between New York's empowered and marginalized groups and influenced sociocultural ideas about what Shakespeare race and national belonging should and could mean for Americans Timely and immensely readable this book explains how ideas about cultural belonging formed and transformed within a particular human community at a time of heightened demographic change Kinsley's work will be welcomed by anyone interested in the formation of national identity immigrant communities and the history of the theatre scene in New York and the rest of the United States **The Bellman**, 1918 *Comics through Time* M.
