Destroyer! M. J. Whitley, 1983      German Capital Ships of the Second World War Siegfried Breyer, Miroslaw Skwiot, 2012-05-02 Outstanding covers the major units starting with the Deutschland Class through the Scharnhorst and Gneisenau to the Bismarck and Tirpitz WW2 Cruisers The Kriegsmarine's capital ships Deutschland Admiral Scheer Graf Spee Scharnhorst Gneisenau Bismarck and Tirpitz continue to generate intense interest among warship enthusiasts despite the fact that no new source of information has been unearthed in decades What has come to light however is a growing number of photographs many from private albums and some that lay forgotten in obscure archives These include many close ups and onboard shots of great value to modelmakers as well as rare action photos taken during wartime operations This book is a careful selection of the best of these but on a grand scale with around one hundred images devoted to each ship allowing in depth coverage of its whole career from launching and fitting out to whatever fate the war had waiting for it For sake of completeness there are even sections reproducing the various design studies that led to each class while an appendix covers the uncompleted Graf Zeppelin Germany's only attempt to build an aircraft carrier the vessel which clearly displaced the battleship as the capital ship of the world's navies during the war Essays on technical backgrounds and design origins by the well known expert Siegfried Breyer and explanatory captions by Miroslaw Skwiot draw out the full significance of this magnificent collection of photos Highly recommended for those who wish to admire seven of the most magnificent warships built anywhere in the twentieth century We will certainly never see their like again Journal of the Australian Naval Institute

**and Raiders in World War II: From Scharnhorst to Tirpitz, 1942-1944**, 2002      *The Submariner's Dictionary Or Submariner's Compendium of Terms & Tar's Handbook of Naval Verbiage and Retired Guy's Re-familiarization Manual* Ron Martini, 2005 Submariners are a tight knit group of men bound together by training and experience and with a language all their own That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but still worldly

This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes It is heard aboard the boats and unknowingly by family members who can't understand terms like head deck and overhead and who think SOS is a distress signal *Britain, Germany and the Battle of the Atlantic* Dennis Haslop, 2013-11-07 The length scale and intensity of the Battle of the Atlantic led the British and German navies to make substantial changes to their organisation strategy and tactics In this book Dennis Haslop examines the pivotal lessons learned and how these helped to determine the outcome of the Battle of the Atlantic Convoy War He questions how well adapted the two organisations were to learn from the conflict and how effective they were in identifying problems and producing remedies Based on the in depth analysis of British and German primary sources this study provides an innovative basis against which to assess the German and British approach to changing warfare and provides important new insights into aspects of convoy warfare in particular the virtually unknown subject of German Operational Research

**Germany's Last Mission to Japan** Joseph M Scalia, 2009-03-01 When U 234 slipped out of a Norwegian harbor in March 1945 destined for Japan it was loaded with some of the most technically advanced weaponry and electronic detection devices of the era along with a select group of officials En route word came that Germany had surrendered and the boat's commander suddenly found himself with a rogue submarine a precious assortment of cargo and two Japanese naval officers still at war This dramatic account of the voyage offers an intriguing look at the individuals involved One of these individuals was Luftwaffe General Ulrich Kessler who was a member of Von Stauffenberg's Valkyrie conspiracy to assassinate Hitler Kessler was aboard U 234 to escape the wrath of Hitler because he had been tabbed by Von Stauffenberg to replace Hermann Goering as the commander of the Luftwaffe Scalia draws on U S Navy interrogation records European and Japanese archives and interviews with former U 234 crew members and other principals to develop a full portrait of the group He also evaluates the technology of the armament on board which included 560 kg of uranium oxide whose presence continues to provoke questions about a Nazi plan to build an atom bomb in Japan
