German Worker Working Class Autobiogra:

The German Worker Alfred Kelly, 1987-11-20 In the two generations before World War I Germany emerged as Europe's foremost industrial power. The basic facts of increasing industrial output, lengthening railroad lines, urbanization, and rising exports are well known. Behind those facts in the historical shadows stand millions of anonymous men and women, the workers who actually put down the railroad ties, hacked out the coal, sewed the shirt collars, printed the books, or carried the bricks that made Germany a great nation. This book contains translated selections from the autobiographies of nineteen of those now forgotten millions. The thirteen men and six women who speak from these pages afford an intimate firsthand look at how massive social and economic changes are reflected on a personal level in the everyday lives of workers. Although some of these autobiographies are familiar to specialists in German labor history, they are virtually unknown and inaccessible to the broader audience they deserve. This book provides translations that are at once useful, interesting, and entertaining to a wide range of historians, students, and general readers.

The French Worker Mark Traugott, 2023-11-15 This anthology, drawn from the autobiographies of seven men and women whose lives span the nineteenth century, provides a rare glimpse of the everyday lives of workers in the age of early industrialization in France. Appearing for the first time in English, these stories vividly convey the ambitions, hardships, and reversals of ordinary people struggling to gain a measure of respectability. The workers' livelihoods are diverse: chair maker, embroiderer, joiner, mason, silk weaver, machinist, seamstress. Their stories of daily activities, work life, and popular politics are filled with lively, often poignant moments. We learn of dismal, unsanitary housing, disease, workplace accidents, and terrible hardship, especially for the children of the poor. We read of exploitation and injustice of courtship and marriage, and of the sociability of the wine merchant's shop and the boardinghouse. Traugott's analytic introduction discusses the many shifts in French society during the nineteenth century. Used in combination with other sources, these autobiographies illuminate the relationship between changes in working conditions and in the forms of political participation and protest occurring as the century came to a close. This anthology, drawn from the autobiographies of seven men and women whose lives span the nineteenth century, provides a rare glimpse of the everyday lives of workers in the age of early industrialization in France. Appearing for the first time in English.

The Happiness of the British Working Class Jamie L. Bronstein, 2023-01-10 For working class life writers in nineteenth-century Britain, happiness was a multifaceted emotion, a concept that could describe experiences of hedonic pleasure, foster and deepen social relationships, drive individuals to self-improvement, and lead them to look back over their lives and evaluate whether they were well-lived. However, not all working class autobiographers shared the same concepts or valorizations of happiness, as variables such as geography, gender, political affiliation, and social and economic mobility often influenced the way they defined and experienced their emotional lives. *The Happiness of the British Working Class* employs and analyzes over 350 autobiographies of individuals in England, Scotland, and Ireland to explore the sources of happiness of British working people born before

1870 Drawing from careful examinations of their personal narratives Jamie L Bronstein investigates the ways in which working people thought about the good life as seen through their experiences with family and friends rewarding work interaction with the natural world science and creativity political causes and religious commitments and physical and economic struggles Informed by the history of emotions and the philosophical and social scientific literature on happiness this book reflects broadly on the industrial era working class experience in an era of immense social and economic change

The Stonemasons of Creuse in Nineteenth-century Paris Casey Harison,2008 The stonemasons were well known for their skills and their seasonal migration from central France but especially for their role in rebellion This book places the masons story within the larger history of nineteenth century Paris The coverage spans the long nineteenth century starting before 1789 and ending near 1914

The Idea of Work in Europe from Antiquity to Modern Times Catharina Lis,2016-12-05 This volume takes a fresh and innovative approach to the history of ideas of work concerning perceptions attitudes cultures and representations of work throughout Antiquity and the medieval and early modern periods Focusing on developments in Europe the contributors approach the subject from a variety of angles considering aspects of work as described in literature visual culture and as perceived in economic theory As well as external views of workers the volume also looks at the meaning of work for the self perception of various social groups including labourers artisans merchants and noblemen and the effects of this on their self esteem and social identity Taking a broad chronological approach to the subject provides readers with a cutting edge overview of research into the varying attitudes to work and its place in pre industrial society

Class and Other Identities Lex Heerma van Voss,Marcel van der Linden,2002 With the onset of a more conservative political climate in the 1980s social and especially labour history saw a decline in the popularity that they had enjoyed throughout the 1960s and 1970s This led to much debate on its future and function within the historical discipline as a whole Some critics declared it dead altogether Others have proposed a change of direction and a more or less exclusive focus on images and texts The most constructive proposals have suggested that labour history in the past concentrated too much on class and that other identities of working people should be taken into account to a larger extent than they had been previously such as gender religion and ethnicity Although class as a social category is still as valid as it has been before the questions now to be asked are to what extent non class identities shape working people s lives and mentalities and how these are linked with the class system In this volume some of the leading European historians of labour and the working classes address these questions Two non European scholars comment on their findings from an Indian resp American point of view The volume is rounded off by a most useful bibliography of recent studies in European labour history class gender religion and ethnicity

Challenging Separate Spheres Marjanne Elaine Goozé,2007 This collection of essays centers on women writers who negotiated interrogated and challenged the gender ideology of separate spheres through their advocacy and representations of female Bildung The term Bildung encompasses an individual s entire moral spiritual behavioral emotional

political and intellectual development The contributors analyze works of fiction memoirs autobiographies letters the periodical press and conduct and cookbooks from the mid 1700s to circa 1900 that confront the separate spheres paradigm and promote women s educational and personal development They examine women s writing and reading practices moral and gender philosophies political activism and work from the home to the stage and factory Most writers did not repudiate outright existing gender models but both subtly and overtly subverted and reinterpreted them In all the texts the process of female education leads to an assertion of agency The writers came from different social classes and professional backgrounds ranging from noblewomen to working class autobiographers of the later nineteenth century This volume will be of interest to German cultural literary and historical scholars as well as to those concerned with the development of European feminism women s education and autobiography

Literacy Practices of the Laboring Poor in France, 1800-1860 Steven Edward Rowe, 2002

Reading Primary Sources Miriam Dobson, Benjamin Ziemann, 2020-06-01 Now in its second edition *Reading Primary Sources* explores the varied traditions in source criticism and through specific examples illustrates how primary sources can be read and used in historical research Part I of this two part volume begins by establishing the reader s understanding of source criticism with an overview of both traditional and new methodological approaches to the use of primary documents Taking into account the huge expansion in the range of primary sources used by historians Part II includes chapters on surveillance reports testimony and court files in addition to more traditional genres such as letters memoranda diaries novels newspapers political speeches and autobiography For the new edition each chapter now includes a checklist that suggests an easy to follow sequence of steps for interpreting a specific source genre enabling students to understand how the sources should be read what they have to offer and the pitfalls of their interpretation In addition to new discussions about the availability of digitised source materials a new chapter on social surveys unlocks the potential of these widely used primary sources Taking examples of sources from many European countries and the United States and providing up to date information on the most widely used textual sources this book is the perfect companion for every student of history who wants to engage with primary sources

Class, Politics, and the Decline of Deference in England, 1968-2000 Florence Sutcliffe-Braithwaite, 2018 In late twentieth century England inequality was rocketing yet some have suggested that the politics of class was declining in significance while others argue that class identities lost little power Neither interpretation is satisfactory class remained important to ordinary people s narratives about social change and their own identities throughout the period 1968 2000 but in changing ways Using self narratives drawn from a wide range of sources the raw materials of sociological studies transcripts from oral history projects Mass Observation and autobiography the book examines class identities and narratives of social change between 1968 and 2000 showing that by the end of the period class was often seen as an historical identity related to background and heritage and that many felt strict class boundaries had blurred quite profoundly since 1945 Class snobberies went underground as many people from all backgrounds began to assert that what

was important was authenticity individuality and ordinariness In fact Sutcliffe Braithwaite argues that it is more useful to understand the cultural changes of these years through the lens of the decline of deference which transformed people's attitudes towards class and towards politics The study also examines the claim that Thatcher and New Labour wrote class out of politics arguing that this simple and highly political narrative misses important points Thatcher was driven by political ideology and necessity to try to dismiss the importance of class while the New Labour project was good at listening to voters particularly swing voters in marginal seats and echoing back what they were increasingly saying about the blurring of class lines and the importance of ordinariness But this did not add up to an abandonment of a majoritarian project as New Labour reoriented their political project to emphasize using the state to empower the individual

The Voice of the Past Paul Thompson, Joanna Bornat, 2017 Oral history gives history back to the people in their own words And in giving a past it also helps them towards a future of their own making Oral history and life stories help to create a truer picture of the past and the changing present documenting the lives and feelings of all kinds of people many otherwise hidden from history It explores personal and family relationships and uncovers the secret cultures of work It connects public and private experience and it highlights the experiences of migrating between cultures At the same time it can bring courage to the old meaning to communities and contact between generations Sometimes it can offer a path for healing divided communities and those with traumatic memories Without it the history and sociology of our time would be poor and narrow In this fourth edition of his pioneering work fully revised with Joanna Bornat Paul Thompson challenges the accepted myths of historical scholarship He discusses the reliability of oral evidence in comparison with other sources and considers the social context of its development He looks at the relationship between memory the self and identity He traces oral history through its own past and weighs up the recent achievements of a movement which has become international with notably strong developments in North America Europe Australia Latin America South Africa and the Far East despite resistance from more conservative academics This new edition combines the classic text of The Voice of the Past with many new sections including especially the worldwide development of different forms of oral history and the parallel memory boom as well as discussions of theory in oral history and of memory trauma and reconciliation It offers a deep social and historical interpretation along with succinct practical advice on designing and carrying out a project The Voice of the Past remains an invaluable tool for anyone setting out to use oral history and life stories to construct a more authentic and balanced record of the past and the present

The Red Flag David Priestland, 2016-05-03 The best and the most accessible one volume history of communism now available A far reaching vividly written account Foreign Affairs In *The Red Flag* Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy *The Red Flag* is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review

Childhood in Modern Europe Colin Heywood, 2018-09-06 This invaluable introduction to the history of childhood in both Western and Eastern Europe c 1700 2000 seeks to give a voice to children as well as adults wherever possible It addresses a number of key topics including conceptions of childhood ideas about family life culture welfare schooling and work

Against Capitalism William A. Pelz, 2007 Typically the gains in living standards and political rights of Europeans are presented as flowing from the good graces of industrial capitalism In reality as this book proves it was the massive militant struggle of millions of average persons who forced concessions such as the welfare state and free elections to Parliament Without understanding the revolutionary vision and the pressure it placed on European rulers it is difficult to understand contemporary society

A Political Biography of Arkadij Maslow, 1891-1941 Mario Kessler, 2020-04-30 This book is a political biography of Arkadij Maksimovich Maslow 1891 1941 a German Communist politician and later a dissident and opponent to Stalin Together with his political and common law marriage partner Ruth Fischer Maslow briefly led the Communist Party of Germany the KPD and brought about its submission to Moscow Afterwards Fischer and Maslow were removed from the KPD leadership in the fall of 1925 and expelled from the party a year later Henceforth they both lived as communist outsiders persecuted by both Hitler and Stalin Maslow escaped to Cuba via France and Portugal and was murdered under dubious circumstances in Havana in November 1941 He died as a communist dissident committed to the cause of a radical socialist labor movement that lay in ruins Kessler considers Maslow s role in

pivotal events such as the Bolshevik Revolution in Soviet revolutionary parties and organizations through to the rise of Stalinism and Cold War anti communism What results is a deep dive into the life of a key yet understudied figure in dissident communism

The Ashgate Research Companion to Imperial Germany Matthew Jefferies, 2016-03-03 Germany's imperial era 1871-1918 continues to attract both scholars and the general public alike The American historian Roger Chickering has referred to the historiography on the Kaiserreich as an extraordinary body of historical scholarship whose quality and diversity stands comparison with that of any other episode in European history This Companion is a significant addition to this body of scholarship with the emphasis very much on the present and future Questions of continuity remain a vital and necessary line of historical enquiry and while it may have been short lived the Kaiserreich remains central to modern German and European history The volume allows 25 experts from across the globe to write at length about the state of research in their own specialist fields offering original insights as well as historiographical reflections and rounded off with extensive suggestions for further reading The chapters are grouped into five thematic sections chosen to reflect the full range of research being undertaken on imperial German history today and together offer a comprehensive and authoritative reference resource Overall this collection will provide scholars and students with a lively take on this fascinating period of German history from the nation's unification in 1871 right up until the end of World War I
