**German Incertitudes, 1914-1945** Klemens Von Klemperer, 2001 *German Incertitudes, 1914-1945* Klemens von Klemperer, 2001-03-30 The history of modern Germany has all too readily been seen in terms of an historical process that inevitably led to the horrors of National Socialism As there are no certitudes in life however so there are none in German history In this book historian Klemens von Klemperer focuses on what he terms the German Incertitudes namely the tensions between a realistic acceptance of disenchantment with the modern world and an insistence upon reenchantment Exploring this tension through a critical assessment of the ideas and writings of major German thinkers von Klemperer seeks to account for both the achievements and the failings of German thought society and politics as responses to the challenge of modernity in the first half of the 20th century In addition to individuals such as Nietzsche Weber Spengler J nger Bonhoeffer and Heidegger the author considers broader movements and ideas such as the concept of Gemeinschaft and the German expressionists all in the wider context of Western intellectual currents Rather than belaboring presumed German deviance from the European norms von Klemperer explores the reasons why the sense of crisis in the face of modernity was singularly acute among Germans he traces a spectrum of reactions extending from an acceptance of modern disenchantment to the quest for reenchantment which found an extreme manifestation in National Socialism **The Gas Mask in Interwar**

**Germany** Peter Thompson, 2023-05-25 A history of the gas mask in Germany from first use in combat in 1915 to the eve of the Second World War Peter Thompson traces how the development and proliferation of chemical protective technologies like the gas mask produced new subjective relationships to danger risk management and mastery in the modern age of mass destruction **Ethics** Victoria J. Barnett, Dietrich Bonhoeffer, Clifford J. Green, Charles C. West, 2015-11-01 Ethics is the culmination of Dietrich Bonhoeffer's theological and personal odyssey and one of the most important works of Christian ethics of the last century Using the acclaimed Dietrich Bonhoeffer Works English translation and adapted to a more accessible format this new edition features an insightful introduction by Clifford Green and supplemental material from Victoria J Barnett Written in the midst of the conspiracy to overthrow the Hitler regime it is nonetheless chiefly concerned with ethics for the postwar time of reconstruction and peace Though caught up in the vortex of momentous forces in the Nazi period Bonhoeffer systematically envisioned a radically Christocentric incarnational ethic for a postwar world purposefully recasting Christians relation to history politics and public life Focused on Christ the God who became human and the vision of a world reconciled with God Ethics shuns abstraction seeks the will of God in concrete historical reality and calls the church to be a transforming community in the world with a new responsibility to public life This edition allows all readers to appreciate the cogency and relevance of Bonhoeffer's vision **The Second Generation** Andreas W. Daum, Hartmut Lehmann, James J. **Religion, Redemption and Revolution** Wayne Cristaudo, 2012-04-28 Religion Redemption and Revolution closely examines the intertwined intellectual development of one of the most important Jewish thinkers of the twentieth century Franz Rosenzweig and his friend and teacher Christian sociologist Eugen Rosenstock Huessey The first major English work on Rosenstock Huessey it also provides a significant reinterpretation of Rosenzweig's writings based on the thinkers shared insights including their critique of modern Western philosophy and their novel conception of speech This groundbreaking book provides a detailed examination of their new speech thinking paradigm a model grounded in the faith traditions of Judaism and Christianity Wayne Cristaudo contrasts this paradigm against the radical liberalism that has dominated social theory for the last fifty years Religion Redemption and Revolution provides powerful arguments for the continued relevance of Rosenzweig and Rosenstock Huessey's work in navigating the religious social and political conflicts we now face

**A Companion to the Works of Stefan George** Jens Rieckmann, 2005 Stefan George 1868 1933 is along with Hugo von Hofmannsthal and Rainer Maria Rilke one of the pre eminent German poets of the twentieth century He also had an important albeit controversial and provocative role in German cultural history It is generally agreed that he played a significant part in the transition of German literature to Modernism particularly in poetry At the same time he was an outspoken critic of modernity He believed that only an all encompassing cultural renewal could save modern man Although George is often linked with the *l art pour l art* movement and although his artistic consciousness was formed by European aestheticism his poetry and the writings that emerged from the poets and intellectuals he gathered around him in the George Circle are above all a scathing commentary on the political social and cultural situation in Germany at the turn of the century George who was imbued with the idea of the poet as a prophet and priest saw himself as the Messiah of a New Hellenism and a New Reich led by an intellectual and aesthetic elite consisting of men who were bonded together through their allegiance to a charismatic leader Some of the values that George proclaimed among them a glorification of power of heroism and self sacrifice were seized upon by the National Socialists and subsequently his writings and those of his circle were considered by some to be proto fascist It did not help his reputation that after the Second World War much of the criticism of his works was practiced by uncritical hagiographic George worshippers In recent years however there has been a renewed and unbiased interest among scholars and critics in George and his circle The wide ranging and original essays in this volume explore anew George's poetry and his contribution to Modernism the relation between his vision of a New Reich and fascist ideology and his importance as a cultural critic Jens Rieckmann is Professor of German at the University of California Irvine
