constantly struggled to secure sufficient personnel or aircraft and would spend most of its life playing catch up its radar systems regularly outdone by RAF Bomber Command's jamming capabilities though the development of Schräge Musik and Wilde Sau did give the Nachtjagd an edge The first specialist Luftwaffe night fighter the Heinkel He 219 would be trialled only in 1943 Fully illustrated this is a full chronological account of the night fighter units for the first part of World War II covering major campaigns the biographies of individual aces and the details of the technology developed for the Nachtjagd
