The Literature of Germany, from Its Earliest Period to the Present Time, Historically Developed ... Edited by W. H. Faru Franz J. L. THIMM,1844 *Germany Possessed* H.G. Baynes,2016-08-05 Originally published in 1941 the blurb read The aim of this work is to state and understand the psychological dynamics of the present conflict The author is a medical psychologist who has had unusual opportunities for studying German mentality He characterizes the condition of Germany as one of d monic possession and Hitler as the primitive medicine man who gained a magical ascendancy by playing the role of medium to the German unconscious He analyses the fundamental instability of the collective German psychology and relates this to the d monic outbreak The ambiguous personality of the F hrer is seen as the indispensable symbol of a deeply divided nation striving for unity Whereas the pagan Christian conflict in the soul of Christendom is urging individual consciousness to a new statement of human values it has produced in the soul of Germany a state of collective intoxication which is the negation of individuality This book is the first serious attempt to depict the invisible underground causes of the European catastrophe and to state the issue in terms of epochal transition It was German violence which started the conflagration but the fires of anti Christian revolt have long been smouldering in the general unconscious Material of a varied kind gathered from German myth and legend and from a number of contemporary witnesses has been pieced together into a comprehensive psychological survey embracing both the personal and the impersonal aspects of the German scene Hitler is discussed as personality as symbol and as a disease The influence of the Wagnerian German myth upon Hitler s inflammable imagination is discussed and the basic ideas of Hitlerism are traced to their source This is the attempt of psychology to elucidate the irrational and unintelligible elements in the present chaos *Guide to the Archival Materials of the German-speaking Emigration to the United States after 1933. referred to and treated Germany as a distinct place even though it was still politically divided thus enabling German readers to imagine their fragmented nation as a conceptual whole Second Germans themselves began to explore their homeland and write travelogues that solidified the nascent sense of national identity Ethnographic descriptions from places and peoples far away further aided this process as Germans learned to view themselves through this particular lens Surveying a large corpus of German and some British and French travelogues travel handbooks and popular geographic texts and bringing to bear discourses of nationalism and geography including Edward Soja s seminal concept of Thirdspace Karin Baumgartner reveals what travel writing can tell us about conceptual changes in geographic paradigms and national identity in Germany in the eighteenth and nineteenth centuries
