

# Germany from Empire to Ruin 1913-1945

Selected documents edited by

Henry Cord Meyer

This volume illuminates three major characteristics of the German historical experience in the twentieth century. First, it depicts German youth — from the critics of materialism through devotion to Nazi ideals to the shattered generation surviving the ruins of postwar Germany.

The second theme is the prevalence of the conservative attitudes, and the efforts to capture and command the vigour of National Socialism.

The third major theme is the persistent German search for psychological security.

Through carefully chosen primary source material Professor Meyer describes not only the fate of a nation, but also the interlocking of that fate with world destiny. He first presents a concise and highly readable summary, then offers vital and compelling documents detailing the period he discusses.

This work is especially significant today for, as the editor points out, '... the mistakes and misfortunes of the Germans can give us insight into the issues of our own times'.

Henry Cord Meyer, the editor, is the chairman of the history department at the University of California at Irvine, and the author of two other books on Germany.
