experiences and edited them into *The Skeptic Psychic* an Autobiography into the Acceptance of the Unseen *The Skeptic Psychic* has two purposes first it entices the reader to expand their imagination beyond what we currently perceive as reality and it offers my experiences and my reactions my fear to these situations as a comfort and encouragement for the reader to challenge their own suspicions and limitations I am now a working psychic offering animal readings or mediumship as well as leading meditations teaching classes and offering energy healing and my students and clients often comment how at peace and naturally talented I am and I smile For I know that I had lived through a myriad of experiences that with time had taught me to acclimate and accept the unseen But I am far from naturally talented and I feel that *The Skeptic Psychic* could help aspiring psychics or anyone contemplating the unknown to better understand that they are not alone in what they are experiencing I composed *The Skeptic Psychic* from chronological journal entries that span from August of 2005 through March of 2006 The book opens just after I attended a weekend retreat that posed the possibility that adults could believe in fairies and aliens The more I questioned if fairies could exist the more I discovered that they did Later that year I confronted my apprehension when sensing that aliens were near as well And as 2005 changed into 2006 I learned to overcome my fears and to accept the unseen I realize that my story and the fact that aliens and fairies do exist sounds rather unbelievable but read my book follow the path the reasoning of how I learned to overcome my fears and understand that the result was a peace a knowing that we are not alone in our reality that there are unseen beings guides are another term that are present to enlighten protect and serve I close this book description the way I close all my journal entries with the salutation Namaste

defined through WIKPEDIA as I respect that divinity within you that is also within me Namaste Suzy Graf **The Essential Guide to Energy Healing** Ben Andron, Dr. Michael Andron, 2012-08-07 In our complex times innumerable people are stricken with disease discomfort and pain some from identifiable sources and others rooted deeply in psychological trauma More and more people are turning to natural holistic therapies to supplement or replace traditional medicine ease pain and heal the source of their suffering *The Essential Guide to Energy Healing* illuminates the various uses of body and earth energy to mitigate disease and suffering and helps readers judge for themselves which methods will be most effective for their ailments or those of others they wish to heal Practical steps show how to put these energies to use Topics covered include What energy medicine is and how it works Magnet therapy Light therapy Cymatic sound therapy Psychic healing Therapeutic touch Healing touch Esoteric healing Qi Gong healing Reiki Pranic healing Crystal healing Distant healing
