Health at the Crossroads Dean Black,1988 Alternative Healthcare Jack Raso,2013-12-05 Raso examines the philosophical underpinnings of alternative medicine as well as hands on healing Qigong and faith healing He shows that whatever the specific philosophy the common denominator is a rejection of the scientific approach of modern medicine in favor of a belief in paranormal forces that influence the well being of mind and body The final section is a firsthand account of Raso s many revealing visits to various alternative healthcare practitioners The book concludes with an encyclopedic glossary of alternative healthcare terminology The Whole-Food Guide to Strong Bones Annemarie Colbin,2009-02-02 In *Whole Foods for Strong Bones* maverick nutritional theorist and best selling author Annemarie Colbin gives readers a complete lifestyle program including some 100 delicious and satisfying recipes that can strengthen bones and prevent osteoporosis *The New Natural Cat* Anitra Frazier,Norma Eckroate,1990-11-01 Here is the definitive handbook for concerned cat lovers everywhere now thoroughly revised and updated with an all new health encyclopedia Offers basic tips on choosing a vet dealing with litter box problems selecting a scratching post proper grooming and diet caring for sick cats and much more 20 line drawings *Shadow Medicine* John S. Haller, Jr.,2014-07-08 Can Evidence Based Medicine EBM and Complementary and Alternative Medicine CAM find common ground A distinguished historian of medicine John S Haller Jr explores the epistemological foundations of EBM and the challenges these conceptual tools present for both conventional and alternative therapies As he explores a possible reconciliation between their conflicting approaches Haller maintains a healthy scientific skepticism yet finds promise in select complementary and alternative CAM therapies Haller elucidates recent research on the placebo effect and shows how a new engagement between EBM and CAM might lead to a more productive medical practice that includes both the objectivity of evidence based medicine and the subjective truth of the physician patient relationship Haller s book tours key topics in the standoff between EBM and CAM how and why the double blinded randomized clinical trial RCT came to be considered the gold standard in modern medicine the challenge of postmodern medicine as it counters the positivism of evidence based medicine and the politics of modern CAM and the rise of the National Center for Complementary and Alternative Medicine He conducts an in depth case study of homeopathy explaining why it has emerged as a poster child for CAM and assesses CAM s popularity despite its poor performance in clinical trials Haller concludes with hope showing how new experimental protocols might tease out the evidentiary basis for the placebo effect and establish a foundation for some reconciliation between EBM and CAM The Natural Cat Anitra Frazier,Norma Eckroate,2008-11-25 The holistic bible for cat caregivers and a must have gift for cat lovers now updated and expanded The *Natural Cat* was one of the first books to advocate natural cat care when it was originally published in 1983 Now fully revised and expanded to address the many new discoveries in holistic pet care this updated edition includes A new introduction detailing the latest advances in holistic care for cats Updated statistics new diet guidelines and health care recommendations

Cultural Exchange David Baronov, 2010-05-14 Beginning with the colonial era Western biomedicine has radically transformed African medical beliefs and practices Conversely in using Western biomedicine Africans have also transformed it *The African Transformation of Western Medicine and the Dynamics of Global Cultural Exchange* contends that contemporary African medical systems no less biomedical than Western medicine in fact greatly enrich and expand the notion of biomedicine reframing it as a global cultural form deployed across global networks of cultural exchange The book analyzes biomedicine as a complex and dynamic sociocultural form the conceptual premises of which make it necessarily subject to ongoing change and development as it travels the globe David Baronov captures the complexities of this cultural exchange by using world systems analysis in a way that places global cultural processes on equal footing with political and economic processes In doing so he both allows the story of Africa s transformation of Western biomedicine to be told and offers new insights into the capitalist world system
