Healerprophet In Afrochristian Churches:

The Healer-Prophet in Afro-Christian Churches Gerhardus C. Oosthuizen, 2016-05-18 Apart from the mainline Pentecostal and Zionist churches there are different types of African Independent Indigenous Churches AIC The greater part of the more than four thousand denominations and eight million adherents came into the AIC during the past three decades mainly from the traditional African religious background The important role of the diviner in the traditional society has been replaced by the prophet in the AIC the prophet understands the worldview of his her people especially the cultural diseases In some churches the office of prophet cum diviner is represented by one person The AIC movement is the most dynamic church movement in many parts of Africa especially Southern Africa The consistent growth of these churches can largely be accounted for by the healing procedures they use which are highlighted in this study Dr Oosthuizen approaches healing from various angles as sickness is not only determined by physical and psychological factors but also by disturbed human relationships and socio political and economic tensions An African Challenge to the Church in the Twenty-first Century Mongezi Guma, A. women in leadership roles within the church These organisations are still more or less divided along racial lines The aim of the fieldwork carried out from 1995 to 1997 and in 2000 was to find out if these racial boundaries would begin to dissolve and if women would find more empowerment in their congregations after the democratisation of the country Further topics are the renaissance of African traditions and religious practices that came about with the end of apartheid The methodology follows an ethnographic approach that relies heavily on interviews and participant observation with the analysis bringing South African women s voices to bear on these issues rather than providing an external and analytical analysis of the issues
