Health Care Social Work Practice Concepts And Strategies:

Social Work Practice in Health Care Settings Michael J. Holosko, Patricia A. Taylor, 1992 Social Work Practice in Health Care Settings is written by social work practitioners for colleagues in health care settings. It is aimed at teaching social workers how to survive in a rapidly changing health care system. The text emphasizes the role of the social worker in a variety of health care settings with a variety of unique patient disease groups. From community health centres to hospitals and from cancer patients to Alzheimer's victims, this book brings together for the first time the special expertise of social work in responding to various health care needs. One unique feature of this text is the emphasis on the potential for social work role development in each of the particular areas covered. With each article written in a standardized format, it is appropriate for both undergraduate and graduate courses in schools of social work as well as for social work practitioners in the field and allied health professionals. Health Care Social Work Practice Elfriede Schlesinger, 1985-01-01 *The Changing Face of Health Care Social Work* Sophia F. Dziegielewska, 2003-11-12 Updated and revised, this text advocates a proactive stance for health care social workers. It will serve as a practical guide that addresses the principles of practice in our current health care environment. With the advent of numerous health care changes such as managed health care with its focus on behaviorally based outcomes and objectives, this volume illustrates the new face of health care social work. This comprehensive text is full of practice-oriented tips, professional profiles in such diverse arenas of practice as the emergency room, home care, case management, and hospice. Questions for further study and select Website resources per chapter. It will help prepare social workers for the practice change needed in order to become viable clinical practitioners. Health Care Social Work Practice Elfriede G. Schlesinger, 1985 **Best Practices for Social Work with Refugees and Immigrants** Miriam Potocky, 2002-04-24 Social work practice with refugees and immigrants requires specialized knowledge of these populations and specialized adaptations and applications of mainstream services and interventions. Because they are often confronted with cultural, linguistic, political, and socioeconomic barriers, these groups are especially vulnerable to psychological problems. Among these problems are anxiety, depression, alienation, grief, even post-traumatic stress disorder, as well as biological concerns stemming from inadequate or underutilized medical services. **Best Practices for Social Work with Refugees and Immigrants** is the first book to offer a comprehensive guide to social work with foreign-born clients that evaluates many different strategies in light of their methodological strengths and weaknesses. Part I sets forth the context for empirically based service approaches to such clients by describing the nature of these populations, relevant policies designed to assist them, and service delivery systems. Part II addresses specific problem areas common to refugees and immigrants and evaluates a variety of assessment and intervention techniques for each area. Maintaining a rigorous empirical and broadly pan-cultural approach throughout, Miriam Potocky Tripodi seeks to identify the most practical best practices to meet the various and pressing needs of uprooted peoples. **Current Catalog** National Library of Medicine (U.S.), 1985 First multi
