

WOMEN AND NUTRITION IN HIMALAYAN REGION : A CASE STUDY

B.R. Pant

*Department of Geography, Government P.G. College,
Rudrapur-263 153, Uttarakhand, India*

INTRODUCTION

Despite spectacular increase in food grain production in recent decades the problem of chronic malnutrition continues to exist extensively, especially among children and women, because they are caught in the relentless sequence of ignorance, poverty, inadequate nutritious food intake and disease. About 40% women in sub-Saharan Africa suffer from iron deficiency i.e., anemia, as against approximately 60% of women in South Africa and India. This rises to a staggering 83% during pregnancy. India has the highest number of female mortality during pregnancy and childbirth. According to the states of the World's Children Report, 410 out of 1 lakh new born babies in the country loose their mother during the delivery itself. Likewise India, women of Uttarakhand Himalaya also perform agricultural practices (primary activities) and contribute to a major share of family economy in terms food grains, oilseeds, vegetables, fruits, milk, wool, fuel, fodder etc. In this part of Himalaya, excess workloads coupled with inadequate intake of nutritious food have led to malnutrition problem among the women. Infact cooking less than required, eating cold or left over of sometimes even sleeping meals have been reported not only in the region but also in several developing countries as fuel saving strategies. This practice over a longer period can result lower nutritional levels. United Nations has fixed some important priorities to achieve the target in 15 years i.e., by 2015. These priorities have been earmarked on the basis of Human Development Report, which reflects the major problem of basic needs and environment. The report (1997-98) says that almost 81 crore people of the world are suffering from hunger and lower nutrition. Nearly 1 crore 10 lakh children's die during pregnancy or at the child's birth. World's developed vs. poor countries of Africa ratio of women's death during child's birth is one to 4085 and one to 13 respectively.

The main objective of this study is to calculate the nutritional status of a most vulnerable section of the society i.e., women as per their stages i.e., general (non lactating-non pregnant), pregnant and lactating with the support of their socio-economic backgrounds, housing and sanitation pattern, hygiene pattern, food habits, etc. An attempt has been made to measure the magnitude of mal nutritional-chronic energy deficiency among the samples.

METHODOLOGY

A total of 136 sample women from 14 villages situated in different geo-physical divisions of Kumaun Himalaya-Tarai (3 villages), Bhabar (3), Dun (1 village) were randomly selected for the study (Fig.1). Among the married women between the ages of 15 to 59 years old, ten except six samples from village Bharatpur No. 1 of three categories-general (39 Nos.), pregnant (44 Nos.) and lactating (53 Nos.) from all segments of the society were selected from the sample villages. Data pertaining socio-economic, housing condition, environmental sanitation pattern, hygiene pattern, food intake, etc. of the sample was collected with the help of structured interview scheduled during survey in 1999-2000. Overall information of the region was gathered from secondary sources (Pant, 1995, 1996, 1998). Each food items taken by the women during the survey was collected in local units and then converted into standard units and finally converted into various nutrition (i.e., energy protein, fat, minerals and vitamins) categories, and then percentage departure has been compared with the standard requirements for each group (stage) of women separately (Gopalan *et al.*, 1993). Body Mass Index (BMI) has been computed using the

Food And Nutrition A Study Of Himalayan Region Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Food And Nutrition A Study Of Himalayan Region PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing

individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Food And Nutrition A Study Of Himalayan Region PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Food And Nutrition A Study Of Himalayan Region free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.
