The SAGE Encyclopedia of Food Issues Ken Albala, 2015-03-27. The SAGE Encyclopedia of Food Issues explores the topic of food across multiple disciplines within the social sciences and related areas, including business, consumerism, marketing, and environmentalism. In contrast to the existing reference works on the topic of food that tend to fall into the categories of cultural perspectives, this carefully balanced academic encyclopedia focuses on social and policy aspects of food production, safety, regulation, labeling, marketing, distribution, and consumption. A sampling of general topic areas covered includes Agriculture, Labor, Food Processing, Marketing and Advertising, Trade and Distribution, Retail and Shopping, Consumption, Food Ideologies, Food in Popular Media, Food Safety, Environment, Health, Government Policy, and Hunger and Poverty. This encyclopedia introduces students to the fascinating and at times contentious and ever so vital field involving food issues. Key Features: Contains approximately 500 signed entries concluding with cross references and suggestions for further readings. Organized A to Z with a thematic Reader's Guide in the front matter grouping related entries by general topic area. Provides a Resource Guide and a detailed and comprehensive Index along with robust search and browse functionality in the electronic edition. This three-volume reference work will serve as a general non-technical resource for students and researchers who seek to better understand the topic of food and the issues surrounding it.

The Oxford Handbook of the Social Science of Obesity John Cawley, 2011-11-17. There is an urgent need to better understand the causes and consequences of obesity and to learn what works to prevent or reduce obesity. This volume accurately and conveniently summarizes the findings and insights of obesity-related research from the full range of social sciences, including anthropology, economics, government, psychology, and sociology. It is an excellent resource for researchers in these areas, both bringing them up to date on the relevant research in their own discipline and allowing them to quickly and easily understand the cutting-edge research being produced in other disciplines. The Oxford Handbook of the Social Science of Obesity is a critical reference for obesity researchers and is also valuable for public health officials, policymakers, nutritionists, and medical practitioners. The first section of the book explains how each social science discipline models human behavior in particular diet and physical activity and summarizes the major research literatures on obesity in that discipline. The second section provides important practical information for researchers, including a guide to publicly available social science data on obesity and an overview of the challenges to causal inference in obesity research. The third part of the book synthesizes social

science research on specific causes and correlates of obesity such as food advertising food prices and peers The fourth section summarizes social science research on the consequences of obesity such as lower wages job absenteeism and discrimination The fifth and final section reviews the social science literature on obesity treatment and prevention such as food taxes school based interventions and medical treatments such as anti obesity drugs and bariatric surgery *Financial Decision-Making in the Foodservice Industry* Amit Sharma,2019-12-20 The study of decision making in foodservice is still a relatively new area of scholarly interest The application of cost benefit analysis and behavioral finance and economics in the foodservice context is rare This volume *Financial Decision Making in the Foodservice Industry Economic Costs and Benefits* fills that gap and focuses on cost benefit analysis decision making behavioral finance economic theories and their application in foodservice and restaurant industry The volume synthesizes these major themes by developing new theoretical foundations and presenting findings from the investigation of managerial practice The authors cover an abundance of topical issues including ethical obligations in foodservice sustainability issues in the foodservice restaurant industry farm to school and local food expenditures in school foodservice settings managerial traits and behavior in the foodservice industry and more
