## **Footsteps From The Finland Station Five Landmarks In The Collapse Of Communism:**

*Footsteps from the Finland Station* Michael Charlton, 1992      **Footsteps from the Finland Station** Michael Charlton, 1992-01-01      **The Soldier in Russian Politics 1988-1996** Robert V. Barylski,      **Russia and China** Carl A. Linden, 1997-01-01 A collection of thoughtful and far ranging essays by two senior scholars The book hangs together better than most edited volumes *American Journal of Chinese Studies*      *Soviet Politics* Richard Sakwa, 2012-11-12 *Soviet Politics in Perspective* is a new edition of Richard Sakwa's successful textbook *Soviet Politics* an introduction Thoroughly revised and updated it builds on the previous editions comprehensive and accessible exploration of the Soviet system from its rise in 1919 to its collapse in 1991 The book is divided into five parts which focus on key aspects of Soviet politics They are historical perspectives beginning with the Tsarist regime on the eve of Revolution the rise and development of Stalinism through to the decline of the regime under Brezhnev and his successors and Gorbachev's attempts to revive the system institutions of Government such as the Communist Party security apparatus the military the justice system local government and participation theoretical approaches to Soviet politics including class and gender politics the role of ideology and the shift from dissent to pluralism key policy areas the command economy and reform nationality politics and foreign and defence policy an evaluation of Soviet rule and reasons for its collapse Providing key texts and bibliographies this book offers the complete history and politics of the Soviet period in a single volume It will be indispensable to students of Soviet and post Soviet politics as well as the interested general reader      Russia's Bitter Path to Modernity Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped or will it choose its own distinct path of development In this history of Russia from 1917 to the present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire* One of the key factors to Russia's distinctiveness is its halfway location in the center of the Eurasian landmass This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles Neither approach says Chubarov will work on its own Chubarov offers a balanced view abstaining from narrow ideologically biased assessments and examines the triumphs yes and failures of Russia's Soviet development within Russia's own cultural and historical context Without ever minimizing the brutalities of the Soviet period the state terror the collectivizations the labor camps the deportations of whole peoples Chubarov demonstrates much continuity between tsarist and Soviet Russia with the latter often repeating the former's mistakes Russia says Chubarov cannot turn its back on its Soviet experience Far from being a blind alley or aberrant phase the Soviet period was an organic part of Russia history and was largely successful in turning Russia and most of the other Soviet republics into modern states      **The Cause of Cosmopolitanism** Patrick O'Donovan, Laura Rascaroli, 2011 This work in assessing cosmopolitanism as a cause argues that justifications and critiques of the cosmopolitan are shaped as much by political and cultural forces as by the distinctive philosophical tradition in which it is situated      **Belonging to the Nation**

John J. Kulczycki, 2016-03-28 In 1939 Nazis identified Polish citizens of German origin and granted them legal status as ethnic Germans of the Reich After the war Poland did just the opposite searched out Germans of Polish origin and offered them Polish citizenship John Kulczycki's account underscores the processes of inclusion and exclusion that mold national communities

**From Glasnost to the Internet** Frank Ellis, 2016-07-27 The Soviet collapse of 1991 the Great August liberation demonstrated the total exhaustion of Marxist Leninist agitation and propaganda It was no longer possible to live on slogans The failure of Soviet agitprop is also the failure of Soviet censorship the latter being a unique institution in anti thought In From Glasnost to the Internet Ellis analyses the consequences of censorship before tackling the media legislation of the Russian Federation and the new dangers to the free flow of information emerging both within and outside the Russian Federation

*Reframing Corporate Governance* Javier Reyes, 2018 This stimulating book offers an astute analysis of corporate governance from both a historical and a philosophical point of view Exploring how the modern corporation developed from Ancient Rome and the Middle Ages up to the present day Javier Reyes identifies the strengths and weaknesses of the mainstream theory of the firm as put forward by the law and economics school of thought

*War of the Black Heavens* Michael Nelson, 1997-12-01 International diplomacy and a changing global economy did not bring about the fall of the Iron Curtain Radio did and it was mightier than the sword Based on first hand interviews and documents from the Central Committee of the Soviet Communist Party Michael Nelson shows that Western radio principally the British Broadcasting Corporation Radio Free Europe Radio Liberty and the Voice of America were unrivaled forces in the fight against communism and the fall of the Iron Curtain The Communists did everything in their power to prevent the infiltration of Western thought into their world resorting to jamming radio signals assassinating staff and bombing stations The Russians for example decided to stop the mass production of short wave radios so that their citizens could not hear Western broadcasts War of the Black Heavens reveals that due to administrative incompetence short wave radio production continued making worthless many of the billions of dollars spent on jamming These radio programs introduced a forbidden exciting culture to millions of eager listeners Pop music talk shows news and information about consumer goods all relayed a message of the good life subtly undermining the values of the communist regimes Western radio actively connected listeners with the cultures of Europe and North America War of the Black Heavens describes an unheralded story of success and adds a new interpretation that helps us understand some of the most momentous political events of this century
