Homosexuality in Medieval Europe Tobias Lanslor, Although the church condemned homosexuality in the late Middle Ages they had not been too worried about homosexual behavior and such an attitude also prevailed in the secular world However around the thirteenth century these tolerant attitudes changed dramatically Some historians relate this change to the climate of fear and intolerance that prevailed in the century against minority groups that departed from the norm of the majority This persecution reached its peak in the medieval Inquisition when the Cathars and Waldenses sects were accused of obscenity sodomy and Satanism In 1307 accusations of sodomy and homosexuality were important during the Knights Templar trial Medieval Feasts and Banquets Tehmina Bhote, 2003-12-15 Examines the role of food during medieval times discussing how it was prepared shared and used in society Foods, Feasts, and Celebrations Margaux Baum, Tehmina Bhote, 2016-12-15 Many entries in the historical record and examples from popular culture show nobles knights kings and peasants alike celebrating with food and drink In this book medieval agriculture food preparation and eating are explored in equal measure With vivid examples from historical manuscripts paintings frescoes and more this book opens a window for readers into the culinary worlds and celebratory rituals of the people of the Middle Ages From typical foods of the common people to the most dazzling and lavish displays of consumption by kings and queens this volume is sure to sate readers' appetites for knowledge about the era The Pleasures and Horrors of Eating Marion Gymnich, 2010-09-15 Browsing through books and TV channels we find people pre-occupied with eating cooking and competing with chefs Eating and food in

today's media have become a form of entertainment and art. A survey of literary history and culture shows to what extent eating used to be closely related to all areas of human life to religion, eroticism and even to death. In this volume early modern ideas of feasting, banqueting and culinary pleasures are juxtaposed with post-18th and 19th century concepts in which the intake of food is increasingly subjected to moral, theological and economic reservations. In a wide range of essays various images, rhetorics and poetics of plenty are not only contrasted with the horrors of gluttony; they are also seen in the context of modern phenomena such as the anorexic body or the gourmandizing *bête humaine*. It is this vexing binary approach to eating and food which this volume traces within a wide chronological framework and which is at the core not only of literature, art and film but also of a flourishing popular culture.

The Culture of Food in England, 1200-1500 C. M.

Woolgar, 2016-04-26 In this revelatory work of social history C. M. Woolgar shows that food in late medieval England was far more complex, varied and more culturally significant than we imagine today. Drawing on a vast range of sources he charts how emerging technologies as well as an influx of new flavors and trends from abroad had an impact on eating habits across the social spectrum. From the pauper's bowl to elite tables from early fad diets to the perceived moral superiority of certain foods and from regional folk remedies to luxuries such as lampreys Woolgar illuminates desire, necessity, daily rituals and pleasure across four centuries.

Misconceptions About the Middle Ages Stephen Harris, Bryon L. Grigsby, 2010-05-26

Brought together by an impressive international array of contributors this book presents a representative study of some of the many misinterpretations that have evolved concerning the medieval period.

Food and Feast in Medieval England P. W. Hammond, 1993 Alle the poure peple then peescoddes brought Benes and baken apples thei brouhte in here lappes Onions and pot herbs and ripe chiries many Food in the Middle Ages was not always as plentiful as this passage from William Langland's *Piers Plowman* might suggest but there is no doubting its variety. This unique and fully illustrated study begins by examining this extraordinary range, discussing its production and distribution and identifying the different types of food eaten by all classes of medieval English society. Everything that can be discovered about medieval food is dealt with here from hunting, fish, breeding, brewing and baking to food hygiene and storage and the way in which the kitchen and pantry of a large household were organized. For the first time too the nutritional value of the food is systematically evaluated in order to consider whether or not people in medieval England were well fed. There is also a detailed description of the remarkably elaborate regulations known to have been associated with the serving and eating of food in the great households. The book concludes with a discussion of the organization of medieval feasts such as that held at York on 26 December 1251 which after six months of preparation saw the consumption of no fewer than 68 500 loaves of bread and 25 000 gallons of wine along with 1 300 deer 170 boars 60 000 herring 10 000 haddock and 7 000 hens. Firmly based on archaeological and written evidence this groundbreaking work provides a fascinating introduction to a vital but often neglected topic in the study of medieval England and one which will be of interest to historian and layman alike.
