Food Of France:

The Food of France Waverley Root, 1992-06-02 A celebration of French cuisine and culture from a culinary adventurer who made his mark decades before Anthony Bourdain arrived on the scene Traveling through the provinces cities and remote country towns that make up France Waverley Root discovers not only the Calvados and Camembert cheese of Normandy the haute cuisine of Paris and the hearty bouillabaisse of Marseilles but also the local histories customs and geographies that shape the French national character Here are the origins of the Plantagenet kings and Rabelais s favorite truffle flavored sausages and the tale of how the kitchens of Versailles cooked for one thousand aristocrats and four thousand servants in a single day Here too are notes on the proper time of year to harvest snails the Moorish influences on the confections of the Pyrenees where the plumpest geese are raised and the age of the oldest olive tree in Provence In short here is France for the chef the traveler and the connoisseur of fine prose with maps and line drawings throughout **Let's Eat France!**

fraternal conviviality and a respect for the body These cultural ingredients in combination with the bounties of the land contributed to the full flowering of French foodways This is a time of paradox for French gourmandism Never has there been so much literature published on the subject of culinary creativity never has there been so much talk about good food and never has so little cooking been done at home Each day new fast food places open Will French cuisine lose its charm and its soul Will discourse become a substitute for reality French Gastronomy is a delightful celebration of what makes France unique and a call to everyone who loves French food to rediscover its full flavor
