Sports in Africa, Past and Present Todd Cleveland, Tarminder Kaur, Gerard Akindes, 2020-10-20 These groundbreaking essays demonstrate how Africans past and present have utilized sports to forge complex identities and shape Africa s dynamic place in the world Since the late nineteenth century modern sports in Africa have both reflected and shaped cultural social political economic generational and gender relations on the continent Although colonial powers originally introduced European sports as a means of civilizing indigenous populations and upholding then current notions of racial hierarchies and muscular Christianity Africans quickly appropriated these sporting practices to fulfill their own varied interests This collection encompasses a wide range of topics including women footballers in Nigeria Kenya s world class long distance runners pitches and stadiums in communities large and small fandom and pay to watch kiosks the sporting diaspora sports pedagogy sports as resistance and as a means to forge identity sports heritage the impact of politics on sports and sporting biography

East African Running Yannis Pitsiladis, John Bale, Craig Sharp, Tim Noakes, 2007-01-24 What makes East African middle and long distance runners the best in the world How should contemporary academia approach this question The success of East African distance runners has generated a plethora of studies but much of the evidence presented to support hypotheses is anecdotal arguments being led by non academics who use popular media as their medium rather than relying on scientific publications This has resulted in many stereotypical arguments being advocated Within the academic community research has also been restricted by its isolation within either the natural science or social science communities East African Running Towards a Cross Disciplinary Perspective presents a rare collaboration between researchers from the sports sciences and social sciences to explore the questions raised by the phenomena of East African success on the track The text includes psycho social and economic explanations physiological and genetic explanations

attempts to provide unified theories bringing together ideas from natural and social sciences Includes contributions from John Bale Jim Denison Timothy D Noakes and Craig Sharp **Global Sport-for-Development** Daryl Adair,2014-01-21 This book provides a critical approach to sport for development acknowledging the potential of this growing field but emphasising challenges problems and limitations particularly if programs are not adequately planned delivered or monitored A Wider Social Role for Sport Fred Coalter,2007-11-28 Sport is perceived to have the potential to alleviate a variety of social problems and generally to improve both individuals and the communities in which they live Sport is promoted as a relatively cost effective antidote to a range of social problems often those stemming from social exclusion including poor health high crime levels drug abuse and persistent youth offending educational under achievement lack of social cohesion and community identity and economic decline To this end there is increasing governmental interest in what has become known as sport for good A Wider Social Role for Sport presents the political and historical context for this increased government interest in sport s potential contribution to a range of social problems The book explores the particular social problems that governments seek to address through sport and examines the nature and extent of the evidence for sport s positive role It illustrates that in an era of evidence based policy making the cumulative evidence base for many of these claims is relatively weak in part because such research is faced with substantial methodological problems in isolating the precise contribution of sport in many contexts Drawing on worldwide research A Wider Social Role for Sport explores the current state of knowledge and understanding of the presumed impacts of sport and suggests that we need to adopt a different approach to research and evaluation if sports researchers are to develop their understanding and make a substantial contribution to sports policy
