

Maurizio Viroli

FOR LOVE OF COUNTRY

OXFORD

The background of the book cover is a reproduction of a painting. It depicts a woman in a white dress and a blue shawl, standing with her arms outstretched. In the background, there is a figure in a red dress and a turban, possibly a soldier or a person of authority, holding a staff or a weapon. The scene is set in a dark, rocky landscape.

For Love Of Country An Essay On Patriotism And Nationalism

G Thomas

For Love Of Country An Essay On Patriotism And Nationalism:

For Love of Country Maurizio Viroli, 1995 Nationalism and patriotism are two of the most powerful forces shaping world history Though seen by many as two sides of the same coin they have come to have widely different connotations Nationalism is increasingly seen as destructive and at the root of the world's bloodiest conflicts patriotism seems something more benign a political virtue How are we to mark the distinction between these two phenomena How can we rescue patriotism from the tainted grasp of nationalism Reconstructing the historical meaning of the terms Maurizio Viroli shows how the two concepts have been used within specific cultural and ideological contexts He reviews the political thought of Italy England and Germany and shows how patriotism and nationalism have fundamentally different roots Professor Viroli concludes that it is morally unacceptable and indeed unnecessary to be a nationalist to defend the values that nationalists hold dear Patriotism however is a valuable source of civic responsibility

For Love of Country Maurizio Viroli, 1997 Whose Love of Which Country? Balázs Trencsényi, Márton Zászkaliczky, 2010 The volume stemming from the long term cooperation of scholars working on East Central European intellectual history discusses the patterns of patriotic and national identification in the light of the multiplicity of levels of ethnic cultural and political allegiances characterizing this region in the early modern period

The Odyssey of Political Theory Patrick J. Deneen, 2003-04-14 This path breaking and eloquent analysis of The Odyssey and the way it has been interpreted by political philosophers throughout the centuries has dramatic implications for the current state of political thought This important book offers readers original insights into The Odyssey and it provides a new understanding of the classic works of Plato Rousseau Vico Horkheimer and Adorno Through his analysis Patrick J Deneen requires readers to rethink the issues that are truly at the heart of our contemporary Culture Wars and he encourages us to reassess our assumptions about the Western canon's virtues or viciousness Deneen's penetrating exploration of Odysseus's and our own enduring battles between the dual temptations of homecoming and exploration patriotism and cosmopolitanism and relativism and universality provides an original perspective on contentious debates at the center of modern political theory and philosophy

The Tragedy of Ukraine Nicolai N. Petro, 2022-12-19 The conflict in Ukraine has deep domestic roots A third of the population primarily in the East and South regards its own Russian cultural identity as entirely compatible with a Ukrainian civic identity The state's reluctance to recognize this ethnos as a legitimate part of the modern Ukrainian nation has created a tragic cycle that entangles Ukrainian politics The Tragedy of Ukraine argues that in order to untangle the conflict within the Ukraine it must be addressed on an emotional as well as institutional level It draws on Richard Ned Lebow's tragic vision of politics and on classical Greek tragedy to assist in understanding the persistence of this conflict Classical Greek tragedy once served as a mechanism in Athenian society to heal deep social trauma and create more just institutions The Tragedy of Ukraine reflects on the ways in which ancient Greek tragedy can help us rethink civic conflict and polarization as well as model ways of healing deep social divisions

Critical

Republicanism Cécile Laborde, 2008-10-09 The first comprehensive analysis of the philosophical issues raised by the hijab controversy in France this book also conducts a dialogue between contemporary Anglo American and French political theory and defends a progressive republican solution to so called multicultural conflicts in contemporary societies It critically assesses the official republican philosophy of la cit which purported to justify the 2004 ban on religious signs in schools La cit is shown to encompass a comprehensive theory of republican citizenship centered on three ideals equality secular neutrality of the public sphere liberty individual autonomy and emancipation and fraternity civic loyalty to the community of citizens Challenging official interpretations of la cit the book then puts forward a critical republicanism which does not support the hijab ban yet upholds a revised interpretation of three central republican commitments secularism non domination and civic solidarity Thus it articulates a version of secularism which squarely addresses the problem of status quo bias the fact that Western societies are historically not neutral towards all religions It also defends a vision of female emancipation which rejects the coercive paternalism inherent in the regulation of religious dress yet does not leave individuals unaided in the face of religious and secular patriarchal and ethnocentric domination Finally the book outlines a theory of immigrant integration which places the burden of civic integration on basic socio political institutions rather than on citizens themselves Critical republicanism proposes an entirely new approach to the management of religious and cultural pluralism centred on the pursuit of the progressive ideal of non domination in existing non ideal societies Oxford Political Theory presents the best new work in contemporary political theory It is intended to be broad in scope including original contributions to political philosophy and also work in applied political theory The series will contain works of outstanding quality with no restriction as to approach or subject matter Series Editors Will Kymlicka David Miller and Alan Ryan **Political concepts** Richard Bellamy, Andrew Mason, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license Offers a sophisticated analysis of central political concepts in the light of recent debates in political theory Introduces students to some of the main interpretations of key political concepts highlighting their strengths and weaknesses Tackles the principle concepts employed to justify any policy or institution and examines the main domestic purposes and functions of the state Examines the relationship between state and civil society and finally looks beyond the state to issues of global concern and inter state relations Studies the relationship between state and civil society and finally looks beyond the state to issues of global concern and inter state relations Simone Weil, Beyond Ideology? Sophie Bourgault, Julie Daigle, 2020-12-16 In the last decade interest in the writings of French philosopher Simone Weil 1909 1943 has surged Weil is admired for her militant syndicalism her factory experience and participation in the French resistance but it is above all the eclectic and rich character of her work that has increasingly attracted scholarly attention Weil reflected on subjects as diverse as quantum physics Greek tragedy bankruptcy colonialism technology education and religious metaphysics but perhaps most interesting is the way that her work seems to defy any clear ideological labelling Marxist

anarchist liberal conservative and republican all seem to fall short in describing the complexity of Weil's thinking. Adding to the interpretive difficulty is the fact that Weil often expressed biting criticisms of most things political. What this edited volume argues is that it is precisely Weil's unclassifiable nature combined with her sharp and sometimes ambivalent criticisms of politics that make her work a most timely and fascinating object of study for contemporary political philosophy. It proposes a two-pronged approach to her thought: first via a series of conversations set up between Weil and key authors in modern and contemporary political theory (e.g. Sandel, Rawls, Ahmed, Agamben, Orwell) and secondly via a close study of Weil's reflections on various ideologies. The goal of this book is not to position Simone Weil squarely within a single ideological tradition but rather to propose that her thought might allow us to critically engage with various ideologies in the history of political ideas.

The People's Flag and the Union Jack Gerry Hassan, Eric Shaw, 2019-05-07 The British Labour Party has at times been a force for radical change in the UK but one critical aspect of its makeup has been consistently misunderstood and underplayed: its Britishness. Throughout the party's history its Britishness has been an integral part of how it has done politics: acted in government and opposition and understood the UK and its nations and regions. *The People's Flag and the Union Jack* is the first comprehensive account of how Labour has tried to understand Britain and Britishness and to compete in a political landscape defined by conservative notions of nation, patriotism and tradition. At a time when many of the party faithful regard national identity as a toxic subject, academics Gerry Hassan and Eric Shaw argue that Labour's Britishness and its ambiguous relationship with issues of nationalism matter more today than ever before and will continue to matter for the foreseeable future when the UK is in fundamental crisis. As debate rages about Brexit and the prospect of Scottish independence remains live, this timely intervention featuring contributions from a wealth of pioneering thinkers offers an illuminating and perceptive insight into Labour's past, present and future.

Fear and Anxiety in the 21st Century: The European Context and Beyond, 2019-07-22 This volume was first published by Interdisciplinary Press in 2015. This interdisciplinary volume is centred upon the complex and ever-changing issues entailed by fears and anxieties in contemporary Europe and thence the whole world. Indeed, the fate of Europe mirrors the fate of the world itself: events are no longer localized but as soon as they have occurred they have become part and parcel of our experience as a genuinely cosmopolitan species. Some of these fears and anxieties are nurtured by real events whilst others are rooted in imaginary phenomena. The experts who have contributed to this exciting work come from different fields of study: from history to economics and from anthropology to linguistics, yet what they have in common is a genuine commitment to the integrity of interdisciplinary research which teaches mutual respect and scientific curiosity.

Democratic Legitimacy Frederick M. Barnard, 2001 Barnard demonstrates that in a democracy accountability is more than damage control and must be part of considerations in the political forum before decisions are made, not just after the fact when trying to assign blame.

The Athlete as National Symbol Nicholas Villanueva, Jr., 2020-01-17 Examining the phenomenon of nationalism in the world of

sport this collection of new essays identifies moments when athletes became national symbols through their actions on and off the field Since the break up of the Soviet Union and Yugoslavia and related global events of the 1980s and 1990s scholars have explored how race ethnicity gender and sexuality shape and are shaped by nationalism and national participation Topics include race golf and the struggle for social justice in South Africa sport as a battleground within the Israel Palestine conflict multiculturalism and the Olympic Games and white privilege in sport These case studies explore the strength and fragility associated with national identity and how athletes become icons for their nations

The International Social Survey Programme 1984-2009 Max Haller, Roger Jowell, Tom W Smith, 2009-09-11 The social sciences rely more on the comparative method than on experimental data mainly because the latter is difficult to acquire amongst human populations The International Social Survey Programme has played a pioneering role in creating and sustaining methodologically sophisticated mass attitude surveys across the globe Starting in 1984 with five nations it now encompasses forty five nations spread over five continents each administering an identical annual survey to a random sample of their population Analyses of the data or descriptions of the methodology already appear in over 3 000 publications This book contains new contributions from three dozen eminent scholars who analyse and compare the perceptions and attitudes of citizens across all five continents nations and over time Subjects range from inequality and the role of the state ethnic national and global identities the changing relevance of religion beliefs and practices gender roles family values and work orientations household and society Some chapters focus on methodological issues others focus on substantive findings This book sets new standards for cross cultural research

Country of Exiles William R. Leach, 2011-08-10 In Country of Exiles William Leach whose Land of Desire was a finalist for the National Book Award explores the troubling effects of our national love affair with mobility He shows us how the impulse to pull up stakes and find a new frontier has always battled with the need to put down roots and how a new cosmopolitanism has seized our national identity Leach takes us across a featureless America where strip malls homogenize a once varied and majestic landscape and where casinos displace the Native American spiritual connection to the land He shows us a culture where everyone from CEOs to office temps abandons the notion of company loyalty and where rootless academics posit a world without borders With compelling vision and insight Leach reveals the profound but often hidden impact of America's disintegrating sense of place on our national and individual psyche

Dictionary of Race, Ethnicity and Culture Guido Bolaffi, 2003 Race ethnicity and culture are concepts that are interpreted in various and often contradictory ways This dictionary provides the historical background and etymology of a wide range of words related to these concepts and ideas

Democracy and the Quest for Justice William Gay, T. A. Alekseeva, 2004 This book examines the changes and challenges to democracy particularly in contemporary Russia In the first section Russian and American philosophers scrutinize the virtues and vices facing a country changing to a democratic government The book secondly explores the challenges facing a democratic Russia Lastly the book considers carefully issues of social justice arising from the

relationship between democracy and the current economic climate of globalization The series Contemporary Russian Philosophy explores a variety of perspectives in and on philosophy as it is currently being practiced in Russia Co sponsored by the Center for Professional and Applied Ethics at the University of North Carolina Charlotte and by the Russian Philosophical Society this special series features collaborative works between Russians and Americans collections of essays by Russians and monographs by Russians All volumes are published in English *Liquid Modernity* Zygmunt

Bauman,2013-07-10 In this new book Bauman examines how we have moved away from a heavy and solid hardware focused modernity to a light and liquid software based modernity This passage he argues has brought profound change to all aspects of the human condition The new remoteness and unreachability of global systemic structure coupled with the unstructured and under defined fluid state of the immediate setting of life politics and human togetherness call for the rethinking of the concepts and cognitive frames used to narrate human individual experience and their joint history This book is dedicated to this task Bauman selects five of the basic concepts which have served to make sense of shared human life emancipation individuality time space work and community and traces their successive incarnations and changes of meaning Liquid Modernity concludes the analysis undertaken in Bauman s two previous books Globalization The Human Consequences and In Search of Politics Together these volumes form a brilliant analysis of the changing conditions of social and political life by one of the most original thinkers writing today **American Literature in Transition, 1770-1828** William Hunting

Howell,Greta LaFleur,2022-06-23 This volume presents a complex portrait of the United States of America grappling with the trials of national adolescence Topics include but are not limited to the dynamics of language and power the treachery of memory the lived experience of racial and economic inequality the aesthetics of Indigeneity the radical possibilities of disability the fluidity of gender and sexuality the depth and culture making power of literary genre the history of poetics the cult of performance and the hidden costs of foodways Taken together the essays offer a vision of a vibrant contradictory and conflicted early US Republic resistant to consensus accountings and poised to inform new and better origin stories for the polity to come **Democracy in a Global World** Deen K. Chatterjee,2007-07-22 The chapters in this volume deal with

timely issues regarding democracy in theory and in practice in today s globalized world Authored by leading political philosophers of our time they appear here for the first time The essays challenge and defend assumptions about the role of democracy as a viable political and legal institution in response to globalization keeping in focus the role of rights at the normative foundations of democracy in a pluralistic world Through an examination of key topics of current relevance with contrasting views of the leading theorists the chapters address the most relevant theories and forms of globalization traditional democratic paradigms and their limits public deliberation and democratic participation the moral hazards of imperial democracy and the future of liberal democracy In addition to suggesting new perspectives on democracy they use the current debate on justice human rights sovereignty and cultural relativism to shed light on enduring questions about

politics culture and global development This timely and provocative collection will be of interest to anyone concerned with democracy human rights global justice economic development poverty international law peace and various aspects of globalization *International Encyclopedia of Political Science* Bertrand Badie,Dirk Berg-Schlosser,Leonardo Morlino,2011-09-07 Request a FREE 30 day online trial to this title at www.sagepub.com/freetrial With entries from leading international scholars from around the world this eight volume encyclopedia offers the widest possible coverage of key areas both regionally and globally The International Encyclopedia of Political Science provides a definitive comprehensive picture of all aspects of political life recognizing the theoretical and cultural pluralism of our approaches and including findings from the far corners of the world The eight volumes cover every field of politics from political theory and methodology to political sociology comparative politics public policies and international relations Entries are arranged in alphabetical order and a list of entries by subject area appears in the front of each volume for ease of use The encyclopedia contains a detailed index as well as extensive bibliographical references Filling the need for an exhaustive overview of the empirical findings and reflections on politics this reference resource is suited for undergraduate or graduate students who wish to be informed effectively and quickly on their field of study for scholars seeking information on relevant research findings in their area of specialization or in related fields and for lay readers who may lack a formal background in political science but have an interest in the field nonetheless The International Encyclopedia of Political Science provides an essential authoritative guide to the state of political science at the start of the 21st century and for decades to come making it an invaluable resource for a global readership including researchers students citizens and policy makers The encyclopedia was developed in partnership with the International Political Science Association Key Themes Case and Area Studies Comparative Politics Theory and Methods Democracy and Democratization Economics Epistemological Foundations Equality and Inequality Gender and Race Ethnicity International Relations Local Government Peace War and Conflict Resolution People and Organizations Political Economy Political Parties Political Sociology Public Policy and Administration Qualitative Methods Quantitative Methods Religion
