Translated from the Second Edition by Oscar Oeser* Erich Rudolf JAENSCH,Oscar Adolf OESER,1930 [From Metaphysics to Culture](#) Sven Hroar Klempe,2025-04-29 This book is a follow up to the book *Tracing the Emergence of Psychology 1520 1750 A Sophisticated Intruder to Philosophy* Springer 2020 In contrast this new book covers the period 1750 1900 Whereas the previous book focused on how psychology intervened in philosophy and theology the perspective now is how philosophy and psychology tried to free themselves from each other Kant s critical project formed an important start on this Nevertheless this was a struggle during the whole period with a culmination at the end of the 19th century When experimental psychology was established in Leipzig psychology became regarded as an independent science Another aspect of this new project is to pursue how experimental psychology ended up with music and culture as important factors These are highly related to the role of sensation in psychology which influenced how Baumgarten turned the psychological project into aesthetics in 1750 Thus psychology in dialogue with music and aesthetics forms the red thread in this book This book targets all interested in the history of psychology *Biological Memory* Rignano, Eugenio,2013-07-04 First published in 1999 Routledge is an imprint of Taylor Francis an informa company *Race, Racism and Psychology* Graham Richards,2003-09-02 Topics with racial implications have been hotly debated in the psychological literature for most of this century and are often in the news Graham Richards takes a historical look at how the concepts of race and racism emerged within the discipline and charts the underlying premises of some famous studies in

their social and political contexts No one is allowed to be objective in this arena as opponents will always argue that they are not This account is bound therefore to be controversial and excite interest whether or not readers agree with Richards stance

The Nature of Sympathy Max Scheler,2017-07-28 The Nature of Sympathy explores at different levels the social emotions of fellow feeling the sense of identity love and hatred and traces their relationship to one another and to the values with which they are associated Scheler criticizes other writers from Adam Smith to Freud who have argued that the sympathetic emotions derive from self interested feelings or instincts He reviews the evaluations of love and sympathy current in different historical periods and in different social and religious environments and concludes by outlining a theory of fellow feeling as the primary source of our knowledge of one another A prolific writer

and a stimulating thinker Max Scheler ranks second only to Husserl as a leading member of the German phenomenological school Scheler's work lies mostly in the fields of ethics politics sociology and religion He looked to the emotions believing them capable in their own quality of revealing the nature of the objects and more especially the values to which they are in principle directed **The Indian Partition in Literature and Films** Rini Bhattacharya Mehta,Debali

Mookerjee-Leonard,2014-12-17 This book presents an examination of fictional representations in books and films of the 1947 Partition that led to the creation of the sovereign nation states of India and Pakistan While the process of representing the Partition experience through words and images began in the late 1940s it is only in the last few decades that literary critics and film scholars have begun to analyse the work The emerging critical scholarship on the Partition and its aftermath has deepened our understanding of the relationship between historical trauma collective memory and cultural processes and this book provides critical readings of literary and cinematic texts on the impact of the Partition both in the Punjab and in Bengal The collection assembles studies on Anglophone writings with those on the largely unexplored vernacular works and those which have rarely found a place in discussions on the Partition It looks at representations of women's experiences of gendered violence in the Partition riots and how literary texts have filled in the lack of the human dimension in Partition histories The book goes on to highlight how the memory of the Partition is preserved and how the creative arts relation to public memory and its place within the public sphere has changed through time Collectively the essays present a nuanced understanding of how the experience of violence displacement and trauma shaped postcolonial societies and subjectivities in the Indian subcontinent Mapping the diverse topographies of Partition related uncertainties and covering both well known and lesser known texts on the Partition this book will be a useful contribution to studies of South Asian History Asian Literature and Asian Film
