*Amaurosis Fugax* Eugene F. Bernstein,2012-12-06 Amaurosis fugax or fleeting blindness has been known as a clinical entity for hundreds of years 1 Since 1859 we also have understood that the phenomenon frequently is related to atheroembolic disease and that it is considered a classic manifestation of ocular transient ischemic attacks and a potential precursor to stroke However many questions about this syndrome have remained unanswered until quite recently when a great deal of new information and thought has been directed to the subject Transient monocular blindness TMB is only one manifestation of a complicated syndrome of ocular systemic and cerebral diseases that may include some degree of monocular blindness The duration of blindness varies from very brief seconds to complete and permanent The per manent type is referred to as ocular infarction or ocular stroke Retinal infarction is the most severe degree of monocular blindness and usually is due to embolic occlusion of the central retinal artery or one of its branches Varying types of arterial emboli have been described including thrombus cholesterol platelets and fibrin **Microsurgery for Stroke** P. Schmiedek,O.

Gratzl,R.F Spetzler,2012-12-06      **Concepts in Surgical Critical Care** Bryan Boling,Kevin Hatton,Tonja Hartjes,2020-06-11 With more complex surgical patients requiring special perioperative care in an intensive care unit ICU there is an increased demand for Advanced Practice Providers APPs who are equipped to care for them However APPs such as Physician Assistants PAs or Nurse Practitioners NPs have limited specialized training and exposure to the unique needs of the perioperative critically ill population That s where this book can help Concepts in Surgical Critical Care is an indispensable resource for the APP non surgical intensivist or non intensivist surgeon who regularly provides critical care for surgical patients It features a user friendly organization designed for quick reference while at bedside with patients or in an office It starts with foundational critical care topics across all surgical specialties followed by the specifics within 12 including gastrointestinal surgery cardiac surgery neurosurgery obstetrics and more      Training in Neurosurgery in the Countries of the EU H.-J.
