**Captain Stormfield's Visit to Heaven Annotated** Mark Twain,2021-06 The old godless captain Stormfield believed neither in God nor in hell nor in paradise nor in hell Imagine his surprise when after his death flying through the bottomless depths of space he nevertheless arrived in paradise He was even more surprised when he became acquainted with the local order it was too painfully different from the stories about the paradise of priests on Earth **Extract from Captain Stormfield's Visit to Heaven** Mark Twain,2016-12-26 Well when I had been dead about thirty years I begun to get a little anxious Mind you had been whizzing through space all that time like a comet Like a comet Why Peters I laid over the lot of them Of course there warn't any of them going my way as a steady thing you know because they travel in a long circle like the loop of a lasso whereas I was pointed as straight as a dart for the Hereafter but I happened on one every now and then that was going my way for an hour or so and then we had a bit of a brush together But it was generally pretty one sided because I sailed by them the same as if they were standing still An ordinary comet don't make more than about 200 000 miles

a minute Of course when I came across one of that sort like Encke s and Halley s comets for instance it warn t anything but just a flash and a vanish you see You couldn t rightly call it a race It was as if the comet was a gravel train and I was a telegraph despatch But after I got outside of our astronomical system I used to flush a comet occa sionally that was something like We haven t got any such comets ours don t begin One night I was swinging along at a good round gait everything taut and trim and the wind in my favor I judged I was going about a million miles a minute it might have been more it couldn t have been less when I flushed a most uncom monly big one about three points off my starboard bow By his stern lights I judged he was bearing about northeast and by north half east Well it was so near my course that I wouldn t throw away the chance so I fell off a point steadied my helm and went for him You should have heard me whiz and seen the electric fur fly In about a minute and a half I was fringed out with an electrical nimbus that flamed around for miles and miles and lit up all space like broad day The comet was burning blue in the distance like a sickly torch when I first sighted him but he begun to grow bigger and bigger as I crept up on him I slipped up on him so fast that when I had gone about 150 000 000 miles I was close enough to be swallowed up in the phosphorescent glory of his wake and I couldn t see anything for the glare Thinks I it won t do to run into him so I shunted to one side and tore along By and by I closed up abreast of his tail Do you know what it was like It was like a gnat closing up on the continent of America I forged along By and by I had sailed along his coast for a little upwards of a hundred and fifty million miles and then I could see by the shape of him that I hadn t even got up to his waistband yet Why Peters we don t know anything about comets down here If you want to see comets that are comets you ve got to go outside of our solar system where there s room for them you understand My friend I ve seen comets out there that couldn t even lay down inside the orbits of our noblest comets without their tails hanging over
