Extremal Methods of Operations Research Paul R. Gribik, K. O. Kortanek, 1985 **Extremal Methods of Operations Research** Paul R. Gribik, **Extremal Methods and Systems Analysis** A. V. Fiacco, K. O. Kortanek, 2012-12-06 The papers appearing in this Volume were selected from a collection of papers presented at the International Symposium on Extremal Methods and Systems Analysis on the Occasion of Professor A. Charnes 60th Birthday at the University of Texas in Austin 13-15 September 1977 As coeditors we have followed the normal editorial procedures of scholarly journals We have obtained invaluable assistance from a number of colleagues who essentially performed the duties of associate editors coordinating most of the reviews All papers except those appearing in the Historical Perspectives section were refereed by at least two individuals with competency in the respective area Because of the wide range and diversity of the topics it would have been impossible for us to make a consistently rational selection of papers without the help of the associate editors and referees We are indeed grateful to them The breadth of extremal methods and systems analysis suggested by the range of topics covered in these papers is characteristic of the field and also of the scholarly work of Professor Charnes Extremal methods and systems analysis has been a pioneering and systematic approach to the development and application of new scientific theories and methods for problems of management and operations in both the private and public sectors spanning all major disciplines from economics to engineering *Systems and Management Science by Extremal Methods* Fred Young Phillips, John J. Rousseau, 2012-12-06 This volume *Systems and Management Science by Extremal Methods* is the second in a series dedicated to honoring and extending the work of Abraham Charnes The first volume entitled *Extremal Methods and Systems Analysis* Springer Verlag Berlin 1980 was edited by A. V. Fiacco and K. O. Kortanek Subtitled *An International Symposium on the Occasion of Abraham Charnes Sixtieth Birthday* this first volume consisted of a selection from papers presented at a conference in honor of Professor Charnes held at The University of Texas at Austin in September 1977 This second volume consists of papers to be described more fully below that were presented in a similar 2 conference held at the IC Institute of The University of Texas at Austin Texas in October of 1987 to honor Dr. Charnes on his seventieth birthday All these papers were written by scholars and scientists whose own work has been affected by the contributions of this distinguished scholar and educator over a long period of time **Optimization in integers and related extremal problems** Thomas L.
