Horsemen of Israel Deborah O'Daniel Cantrell, 2011-06-30 Almost every book in the Hebrew Bible mentions horses and chariots in some manner usually in a military context However the importance of horses chariots and equestrians in ancient Israel is typically mentioned only in passing if at all by historians hippologists and biblical scholars When it is mentioned the topic engenders a great deal of confusion Notwithstanding the substantial textual and archaeological evidence of the horse s historic presence recent scholars seem to be led by a general belief that there were very few horses in Iron Age Israel and that Israel s chariotry was insignificant The reason for this current sentiment is tied primarily to the academic controversy of the past 50 years over whether the 17 tripartite pillared buildings excavated at Megiddo in the early 20th century were in fact stables Although the original excavators archaeologists from the University of Chicago designated these buildings as stables a number of scholars and a few archaeologists later challenged this view and adopted alternative interpretations After they reassessed the Megiddo stables as storehouses marketplaces or barracks the idea developed that there was no place for the horses to be kept and therefore there must have been few horses in Israel The lack of stables when added to the suggestion that Iron Age Israel could not have afforded to buy expensive horses and maintain an even more expensive chariotry led to a dearth of horses in ancient Israel or so the logic goes that has permeated the literature Cantrell s book attempts to dispel this notion Too often today scholars ignore or diminish the role of the horse in battle It is important to remember that ancient historians took for granted knowledge about horses that modern scholars have now forgotten or never knew Cantrell s involvement with horses as a rider competitor trainer breeder and importer includes equine experience ranging from competitive barrel racing to jumping and for the past 25 years dressage The Horsemen of Israel relies on the author s knowledge of and experience with horses as well as her expertise in the field of ancient Near Eastern languages literature and archaeology *The Farrier's and Horseman's Dictionary* N. B. Philippos, 1726 *A Supplement to Mr. Chambers's Cyclopaedia* Ephraim Chambers, 1753 *The Perfect Horse* William Henry Harrison Murray, 1873 *Horse Senses* Susan McBane, 2012-01-15 Horses perceive the world differently from humans because their senses developed differently through evolution to cope with different ways of living and surviving Horses are essentially prey flight animals The horse s senses therefore determine how the world appears to him and how he reacts to it As the horse s perception and understanding are v
