Langmead, 1996-10-11 A critical guide to the English language literature Dutch Modernism demonstrates the importance of the Dutch contribution to 20th century architecture Holland's valuable role in the creation of modernism 1900 1940 was all but ignored until 30 years ago it is significant that more than a third of the English language literature has appeared since 1975 This guide is comprehensive it summarizes describes and evaluates 1 250 references in the light of contemporary theory and practice This work is of interest to scholars students and practitioners The introduction outlines Holland's unique place in the development of international Modernism 1900 1940 and explores the phenomenon of its eventual recognition in Britain and the United States Although not an exhaustive study this work presents all the areas of study and helpfully evaluates most entries saving the user time and energy A number of Dutch publications have been included some because they are seminal theoretical works and others because they are rich in images As a guide to English language sources Dutch Modernism reaches a wider audience than earlier Dutch and Italian bibliographies **The British National Bibliography**
