Walsh,Mr.Jerald A Schiff,2015-08-18 Asia s financial systems proved resilient to the shocks from the global financial crisis and growth since then has been strong But new challenges have emerged in the region s economies including demographics and aging the need to diversify from bank dominated systems urbanization and infrastructure and the rebalancing of economic activity This book takes stock of the challenges facing the region today and how economic systems in Asia s advanced and emerging market economies compare with the rest of the world **Multilateral Asian Security**

Architecture See Seng Tan,2015-07-16 This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia s multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN s significance to the successes and failures of Asia s multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia s regional architecture the fact remains that the countries considered here notwithstanding their present discontent over the state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics international organisations security studies and IR more generally **Art Therapy in Asia** Debra L. Kalmanowitz,Siu Mei Chan,Jordan S. Potash,2012-04-15 This edited book

documents how the field of art therapy is taking shape as both a profession and a discipline across Asia It explores how art therapists in the East are assimilating Western models and adapting them to create unique and inspirational new approaches that both East and West can learn from *Christianity and Religious Plurality* Wilbert R. Shenk,Richard J.

Plantinga,2016-10-11 Over the past two centuries the Christian faith has spread to all continents Although more global than ever Christians are religious minorities in most societies Religious freedom is hardly universal In the past fifty years millions of people have been uprooted from their traditional homelands in Asia Africa and Latin America Some have emigrated to Western Europe and North America The West has become the scene of cultural linguistic and religious variety on a scale unimagined in 1900 Today the full range of faiths and religious practices from all continents are present in Europe and North

America Christians are challenged to come to terms with this changed situation These developments have intensified religious plurality Christians all over the world are being urged to understand and engage with this new situation This volume highlights this new reality and specifies some sources for engagement not least among them the Judeo Christian scriptures fundamental to all Christianities that emerged out of religious plural contexts On the basis of their faith in the Triune God disclosed in this text all followers of Jesus Christ must interact with these opportunities in today s radically context sensitive world

Asian Security and the Rise of China David Martin Jones,Michael Lawrence Rowan Smith,Nicholas Khoo,2013-01-01 Khoo Jones and Smith have pulled off a remarkable balancing act crafting a well grounded and multifaceted survey of China s rise in the context of Asian security In a field which is often marked more by scholarly effervescence than substance the authors provide a refreshingly detailed portrait of the last two decades and fair mindedly point out evidence which might support both extremes of the debates they challenge with their own third way Frank Scott Douglas US Naval War College US Congratulations to the authors for a clearly argued and comprehensive treatment of China s post Cold War rise and what it means for existing and future dynamics of the Asia Pacific region Effectively employing realist theory in a fair minded treatment of regional developments the volume shows how and why power realities are more important than non material factors in determining the region s trajectory and thereby
