Daughtridge, 2015-07-31 This book is about what I remember about many members of my family and about the knowledge I obtained about them through various interviews and written sources e g obituaries newspapers and articles I found on the Internet The book follows a certain order I describe what I remember about my immediate family members I start off with my father then my mother and then my brother the only sibling I ever had I then discuss my life with my ex wife and her family and then the only child we ever had I go on to another chapter or maybe the third chapter and talk about my paternal grandfathers family and as much of what I could remember about my maternal grandmothers family I know and discovered more about the former than the latter I enhanced my discussion throughout the book with as many pictures as I could gather The book has pictures anywhere from one to about eighty years old This I thought would make the book more interesting and lively The book is replete with explanatory footnotes for those of certain generations or knowledge who may not understand or know of certain places celebrities cultural practices and events The entire book was prepared to relate to all who might read it in terms of family connections their interests in travel history sports genealogy and biography I then talk about my

maternal grandmothers family It is relatively short because I did not know too many of them that well The book covers mostly what I know and found out about my maternal grandfathers family That is because it is the largest segment of my entire family My father had no siblings whereas my mother had about ten or eleven siblings and all of them had children and grandchildren I discovered a great deal more accomplishments in life on my mothers side as opposed to my fathers side of the family I do not think the book is boring or particularly too long or too short The book is a description of the life of the people whom I discuss and how I might have fitted into those lives
