Extreme Mining Machines Stripping Shovels And Walking Draglines:

Extreme Mining Machines Keith Haddock, 2001 Discover the largest machines ever used in the mining industry Giant mining equipment such as stripping shovels and walking dragline shovels were at one time the largest machines to ever move on land Packed with amazing photos this book chronicles the history of the machines built from 1900 to 1971 The sheer size and mind blowing capacity of these mining machines has won many fans Also provides information about construction operation and maintenance A necessity for earthmover or big machine enthusiasts

Power Shovels : The World's Mightiest Mining and Construction Excavators Eric C. Orlemann, Power Shovels is a celebration of the land leviathans that have inhabited the open pit mines over the past century Due to their massive size and unbelievable capabilities interest in these machines extends far beyond their role in the extraction of minerals and precious metals Author Orlemann focuses on the super stripper and loading class of shovels Discover how the super stripper can remove vast amounts of earth and place it over a football field away This book reveals design engineering manufacture assembly and operation of these modern and massive shovels

Colossal Caterpillar : The Ultimate Earthmover Eric C. Orlemann, This awe inspiring collection covers the largest top of the line mining equipment in each of the manufacturer s five major classes haulers wheel loaders hydraulic shovels graders and bulldozers Design development and production histories are accompanied by the stories of these gargantuan machines in service as well as details of the Herculean efforts required for their assembly Incredible modern color photography from both the author and the Caterpillar archives provide shots of the equipment in action and production not to mention detail shots to help explain their working componentry
