Tattoo Culture Lee Barron, 2017-05-31 Tattoos are a highly visible social and cultural sight from TV series that represent the lives of tattoo artists and their interactions with clients to world class sports stars and the social actors we meet on a daily basis who display visible tattoo designs Whereas in the not to distant past tattoos were commonly culturally perceived to represent an outward sign of social non conformity or even deviance tattoos now increasingly transcend class gender and age boundaries and arguably are now more culturally acceptable than they have ever been But why is this the case and why do so many social actors elect to wear tattoos Tattoo Culture explores these questions from historical cultural and media perspectives but also from the heart of the culture itself from the dynamics of the tattoo studio the work of the artist and the world of the tattoo convention to the perspective of the social actors who bear designs to investigate the meanings which lie being the images It critically examines the ways in which tattoos alter social actors sense of being and their relationship with time in the semiotic ways with which they communicate to themselves or to the wider world key elements of their bodily and personal identity and sense of being
