

BODY LANGUAGE GUIDE

"Body language speaks volumes beyond words. From the intensity in my eyes to the subtle gestures I employ, every movement is purposeful. Silence becomes a weapon, drawing you in. Witness the art of manipulation unfold, as I leave an indelible mark with the unspoken language of my body."

ACT I : LEGS

Human beings tend to use their legs to claim territory and as such it can reveal a lot about a persons current mood and feelings. Also try to find these in your own body language.

As some of these indicate negative mood and submissiveness, make sure you purposefully use dominant and confident body language and avoid any types of body language that may induce lack of confidence.

- **Distance between legs**

The amount of confidence is generally indicated by the distance between once legs, the further they are the more confidence they display and the closer the less confidence.

Often visible in people with powerful positions such as policemen.
