other systems of reform and reconstruction **The Politics of Civil Society** Frederick W. Powell, 2007 The Politics of Civil Society offers a wide ranging analysis of recent shifts in ideas and paradigms that underpin social policy Since the 1980s the renaissance of civil society has introduced new ideas about the nature of power citizenship and human rights with such slogans as active citizenship and participation radically challenging the dominance of the state the power of professionals and the welfare system itself Frederick Powell traces the historical roots of these apparent changes and movements demonstrates in detail their often paradoxical results and speculates about the whole future of social policy He has produced an entirely original synthesis as well as a major guide to social policy that goes well beyond traditional interpretations of civil society as the voluntary and community sector The book covers a breadth of material which is not generally found in social policy literature and offers a unique opportunity to rethink existing paradigms This is not just a book for the specialist reader but raises a whole range of issues of much wider interest to the social sciences A concluding chapter on the practical and policy implications of the analysis is of special relevance to welfare practitioners and policy makers BOOK JACKET
