Far Better Far Worse Principles For Marriage:

Paul Transformed Adela Yarbro Collins, 2022-01-01 A fascinating reception history of the theological ethical and social themes in the letters of Paul In the first decades after the death of Jesus the letters of the apostle Paul were the chief written resource for Christian believers as well as for those seeking to formulate Christian thought and practice But in the years following Paul s death the early church witnessed a proliferation of contested and often opposing interpretations of his writings as teaching was passed down debated and codified In this engaging study Adela Yarbro Collins traces the reception history of major theological ethical and social topics in the letters of Paul from the days of his apostleship through the first centuries of Christianity She explores the evolution of Paul s cosmic eschatology his understanding of the resurrected body marriage and family ethics the role of women in the early church and his theology of suffering Paying special attention to the ways these evolving interpretations provided frameworks for church governance practice and tradition Collins illuminates the ways that Paul s ideas were understood challenged and ultimately transformed by their earliest audiences

Matrimonial Property, Needs and Agreements Great Britain: Law Commission, 2012-09-11 Following its 2011 consultation on marital property agreements the Law Commission has opened a supplementary consultation on needs and non matrimonial property Matrimonial Property Needs and Agreements A Supplementary Consultation Paper Consultation Paper No 208 The earlier paper examined the legal status of financial agreements made by husbands wives and civil partners often known as pre nups and post nups The most important question addressed in that consultation was the enforceability of such agreements This extension to the project followed the recommendation from Sir David Norgrove s Family Justice Review Panel for a review of the law relating to financial orders The review is looking at two specific aspects of the law relating to financial provision on divorce i to what extent one spouse should be required to meet the other s financial needs and what exactly is meant by needs and **The Age of Culpability** Gideon Yaffe, 2018-03-15 Why be lenient towards children who commit crimes Reflection on the grounds for such leniency is the entry point into the development in this book of a theory of the nature of criminal responsibility and desert of punishment for crime Gideon Yaffe argues that child criminals are owed lesser punishments than adults thanks not to their psychological behavioural or neural immaturity but instead because they are denied the vote This conclusion is reached through accounts of the nature of criminal culpability desert for wrongdoing strength of legal reasons and what it is to have a say over the law The centrepiece of this discussion is the theory of criminal culpability To be criminally culpable is for one s criminal act to manifest a failure to grant sufficient weight to the legal reasons to refrain The stronger the legal reasons then the greater the criminal culpability Those who lack a say over the law it is argued have weaker legal reasons to refrain from crime than those who have a say They are therefore reduced in criminal culpability and deserve lesser punishment for their crimes Children are owed leniency then because of the political meaning of age rather than because of its psychological meaning This position has implications for criminal
