Boaventura de Sousa Santos says This is an admirable memoir of an intellectual activist who has lived most intensely the progressive struggles of the last sixty years of world history because despite being born in Europe Peter in the best tradition of communist internationalism participated in struggles and movements not only in Central and Eastern Europe but also in Africa and most recently in Latin America But this is much more than a memoir It is so well documented that in this personal experience there are reflected some of the most decisive events of contemporary history It is a living history book But even more than this this book is so clearly and vividly written that at times it reads like the script for an imaginary documentary of our times This book should be read by all concerned with our recent history in order to get a much more complex inside view of what happened while it was happening In particular it should be read by the youth in order to get a close up of the difficulties and possibilities in building another possible world at a time where there existed a vibrant international communist movement It is up to such youth to evaluate whether difficulties are now or more daunting the possibilities less of more luminous Encyclopedia of Post-Colonial Literatures in English Eugene Benson,2004-11-30 Documents the history and development of Post colonial literatures in English together with English and American literature and includes original research relating to the literatures of some 50 countries and territories In more than 1 600 entries written by more than 600 internationally recognized scholars it explores the effect of the colonial and post colonial experience on literatures in English worldwide E.J. Baldwin,2015-06-30 Introducing an eloquent sensual new Canadian voice that rings out in a first novel that is exquisitely rich and stunningly original Roop is a sixteen year old village girl in the Punjab region of undivided India in 1937 whose family is respectable but poor her father is deep in debt and her mother is dead Innocent and lovely yet afraid she may not marry well she is elated when she learns she is to become the second wife of a wealthy Sikh landowner Sardarji whose first wife Satya has failed to bear him any children Roop trusts that the strong willed Satya will treat her as a sister but their relationship becomes far more ominous and complicated than expected Roop s tale draws the reader immediately into her world making the exotic familiar and the family s story startlingly universal but What the Body Remembers is also very much Satya s story She is mortified and angry when Sardarji takes Roop for a wife a woman whose low status Satya takes as an affront to her position and she adopts desperate measures to maintain her place in society and in her husband s heart Yet it is also Sardarji s story as the India he knows and understands the temples cities villages and countryside all so vividly evoked begins to change The escalating tensions in his personal life reflect those between Hindu and Muslim that lead to the cleaving of India and trap the Sikhs in a horrifying middle ground Deeply imbued with the languages customs and layered history of colonial India What the Body Remembers is an absolute triumph of storytelling Never before has a novel of love and partition been told from the point of view of the Sikh minority never before through Sikh women s eyes This is a novel to read treasure and admire that like its two compelling heroines resists all efforts to be put aside *Journal of the Royal United Service*

General Surgery Brendan Moran,Rohin Mittal,Amy Lord,2025-11-26 The Eleventh Edition of Farquharson s continues to provide both the fundamental surgical skills needed by junior trainee surgeons and the general surgical subspecialty knowledge necessary for higher surgical training The topics cover the whole patient with the concept that trainee surgeons need an overview and all surgeons need to occasionally operate outside of their area of expertise Although surgeons in training no longer anticipate that they will be expected to undertake unfamiliar operations without supervision disease and

injury do not respect specialty organ practice especially in emergency surgery and trauma With increasing specialisation even experienced surgeons can sometimes be involved in a surgical emergency or an intraoperative complication requiring them to perform an operative procedure in a subspecialty other than their own With this in mind each of the specialist authors have focused their topic on principles for the general surgeon and the editors have consolidated and adapted the information to bridge the gap between general and specialty surgery In many parts of the world General Surgery has remained an all encompassing surgical discipline and in remote hospitals General Surgeons may be the only surgical specialists When transfer and referral options are unavailable or delayed these surgeons may have to offer a limited service in orthopaedics neurosurgery urology and obstetrics For these reasons some operations in other surgical disciplines are included and here the emphasis is more on what might be achievable in difficult circumstances rather than on a more sophisticated procedure if this would be impractical outside a specialist centre This classic concise textbook will benefit all General Surgeons whether already well established or just embarking on their career in surgery
