Holidays Activities Valerie Ann Bradford,2011-10-28 My book on Holiday Activities is about art and crafts for the children to make during the holidays while the adults are busy with cooking cleaning the house and etc The children can make games to give to their friends or keep for themselves I did each one of these activities myself to make sure I wrote down each step so it would be easy for anyone to do them even grandparents can do these activities The ages are 4 and up with some guidance from the adults These activities are fun and also have some science in them to help the children to build their language skills along with communication skills with others children

The Transformational Power of Fasting Stephen Harrod Buhner,2012-02-02 Fasting practices to reconnect with the sacred regain a sense of your life's purpose and heal physically and emotionally Details what to expect during your fast physically emotionally and spiritually Provides step by step guidelines on preparing for the fast how long you should fast what you can and can't do during the fast and how to end your fast Explains how fasting can help or heal many chronic conditions such as type II diabetes hypertension cardiovascular disease arthritis psoriasis and insomnia For millennia humans have fasted for spiritual emotional and physical reasons as a way to heal their bodies reconnect to the sacred regain a sense of life's purpose and allow their souls to detoxify We are evolutionarily designed to fast and the body knows how to do it very well Fasting

allows the body and all its systems to rest purify and heal During a fast the body enters the same cleansing and healing cycle it normally enters during sleep As a fast progresses the body consumes everything that is not essential to bodily functioning including bacteria viruses fibroid tumors waste products in the blood buildup around the joints and stored fat and the mind and heart release their toxic buildup as well As Stephen Harrod Buhner reveals in order to be truly transformed you must first empty yourself Offering step by step guidelines to fully prepare yourself for a deep fast Buhner explores what to expect during and after spiritual emotional and physical fasting and detoxification He details the necessary dietary and mental preparations leading up to your fast what you can and can't do during a fast and how to end your fast He also explains how to plan the length of your fast and how to choose between a water fast a juice fast or a mono diet fast Revealing how fasting can help or heal many chronic conditions such as type II diabetes childhood seizures hypertension cardiovascular disease arthritis psoriasis insomnia and fibromyalgia Buhner shows fasting as a way to truly inhabit the body to experience its sacredness and to activate its deep capabilities for self healing

Computer Architecture for Scientists Andrew A.

Chien,2022-03-10 The dramatic increase in computer performance has been extraordinary but not for all computations it has key limits and structure Software architects developers and even data scientists need to understand how exploit the fundamental structure of computer performance to harness it for future applications Ideal for upper level undergraduates Computer Architecture for Scientists covers four key pillars of computer performance and imparts a high level basis for reasoning with and understanding these concepts Small is fast how size scaling drives performance Implicit parallelism how a sequential program can be executed faster with parallelism Dynamic locality skirting physical limits by arranging data in a smaller space Parallelism increasing performance with teams of workers These principles and models provide approachable high level insights and quantitative modelling without distracting low level detail Finally the text covers the GPU and machine learning accelerators that have become increasingly important for mainstream applications
