developing law and policies in England and Wales are simultaneously promoting and undermining the rights of children It reflects on how far these developments take account of children s interests using current research on children s needs as a template against which to assess their effectiveness and considering a broad range of topics including medical law education and youth justice A critical approach is maintained throughout particularly when assessing the extent to which the concept of children s rights is being acknowledged by the courts and policy makers and the degree to which the UK fulfils its obligations under for example the UN Convention on the Rights of the Child

A Failure of Proportion Samantha M Davey,2020-06-11 This book explores non consensual adoption an area of law which has sparked considerable debate amongst academics practitioners and the judiciary nationally and internationally The emphasis of this book is on the circumstances in which non consensual adoption may be regarded as a proportionate measure and when less severe forms of intervention such as long term foster care or kinship care may also meet children s needs while providing protection to children s rights under the European Convention on Human Rights The book builds on existing literature on adoption law but takes the discussion in new directions placing an emphasis on the need to closely scrutinise children s and parents rights at all stages of the adoption process not simply when parents appeal against the making of an adoption order A unique feature of this book is its emphasis on routinely incorporating key provisions from the United Nations Convention on the Rights of the Child into analysis when determining whether an adoption order is a proportionate measure
