Fantasies Of Femininity Reframing The Boundaries Of Sex:

Fantasies of Femininity Jane M. Ussher, 1997 In *Fantasies of Femininity* Jane Ussher focuses on unraveling the contradictory visions of feminine sexuality the fact that representations of the definition of woman seethe with sexuality yet for centuries women have been condemned for exploring their own sexual desires In her quest for the sources of feminine representation Ussher interviewed dozens of women as well as some men and combed popular media from *Seventeen* to *Cosmopolitan* and *Dallas* to *Donahue* to identify what shapes women's symbolic images of sex and femininity Ussher argues that women have effectively resisted and subverted these archetypal fantasies of femininity and in the process of so doing reframed the very boundaries of sex In this way she exposes as myth much of what we think we know about woman and about sex

Sexual (Dis)Orientation T. Wilton, 2004-07-06 Tamsin Wilton interviewed close to a hundred women in order to understand how we go about constructing a sexual identity as lesbian or heterosexual How do women experience desire What are the differences between men and women as sexual partners How do desire pleasure intimacy gender and morality become part of women's sense of self Asking these and other questions this study breaks through the stand off between essentialists and constructionists to propose a fresh re thinking of the desiring self

Single Women in Popular Culture A. Taylor, 2011-11-25 *Single Women in Popular Culture* demonstrates how single women continue to be figures of profound cultural anxiety Examining a wide range of popular media forms this is a timely insightful and politically engaged book exploring the ways in which postfeminism limits the representation of single women in popular culture

Female Robots and AI in Science Fiction Cinema Rebecca L. Jones, 2025-08-13 This book is the first comprehensive overview of the history of female presenting AI and robots in US and UK live action science fiction films from 1949 to 2023 It offers an original taxonomy that aids in the examination of 80 films and over 135 characters representations starting with *The Perfect Woman* 1949 and ending with *Robots* 2023 Using its representational taxonomy this book analyses the evolution of these depictions showing the continuations revisions and shifts in the depiction of female presenting AI and robots from objectified eroticised subordinated things to being autonomous moral agents who assert their right to equality and refuse their abusive typically sexual use This book shows how these fictional gendered constructions are products of a heterosexual cisgender male fantasy of an idealised subordinated form of femininity These artificial characters along with their real world counterparts highlight a desire for a subordinated femininity but also show how that subordination is a social construction often reinforced and countered in onscreen depictions By examining the trends within its asserted *Galatea* *Girlfriend* *Mother* and *Deadly Seductress* types this book presents an exploration of what our female presenting artificial creations could be while addressing their contemporary and our current AI technologies and how science fiction is influencing real life while our reality seeks to mirror science fiction

Books-In-Brief: Rethinking Muslim Women & The Veil Katherine Bullock, 2010-01-01 Until now the bulk of the literature about the veil has been written by outsiders who do not themselves

veil This literature often assumes a condescending tone about veiled women assuming that they are making uninformed decisions choices about veiling makes them subservient to a patriarchal culture and religion Rethinking Muslim Women and the Veil offers an alternative viewpoint based on the thoughts and experiences of Muslim women themselves This is the first time a clear and concise book length argument has been made for the compatibility between veiling and modernity Katherine Bullock uncovers positive aspects of the veil that are frequently not perceived by outsiders Rethinking Muslim Women and the Veil looks at the colonial roots of the negative Western stereotype of the veil It presents interviews with Muslim women to discover their thoughts and experiences with the veil in Canada The book also offers a positive theory of veiling The author argues that in consumer capitalist cultures women can find wearing the veil a liberation from the stifling beauty game that promotes unsafe and unhealthy ideal body images for women This book also includes an extensive bibliography on topics related to Muslim women and the veil *Innovations in Feminist Psychological Research* Ellen B. Kimmel,1999 What are the best ways to do research on the psychology of women and gender Within feminist psychology there is a great deal of methodological creativity and diversity This volume highlights how familiar methods such as focus groups can be brought to bear on feminist issues It demonstrates less common methods such as Q sort phenomenological analysis concept mapping and discourse analysis Moreover it explores the role of personal values interpersonal dynamics and sociopolitical influences on the research process Over 60 international contributors share insights into adolescent girls and adult women s sexuality violence and its prevention life patterns and narratives the teaching research nexus gender and race in clinical practice and more Included is a comprehensive resource guide for research publication and teaching on methodological diversity

Cosmetic Surgery, Gender and Culture S. Fraser, 2003-08-18 Women's magazines teem with its promises and horror

stories feminists ardently debate its status as harmful or heroic surgeons and regulators compete to define which procedures can be offered and how Through its representation cosmetic surgery impacts on us all not just those who go under the knife This book investigates the ways in which cosmetic surgery is shaping gender and in the process it questions contemporary cultural studies assumptions about how we read the media

Culture in Psychology Corinne Squire, 2003-09-02 Culture in Psychology breaks new ground by attempting to understand the complexity and specificity of cultural identities today It rejects the idea that Western culture is a standard or that any culture is homogenous and stable Equally it rejects the notion that culture is a mechanism that enhances reproductive fitness Instead it alerts psychologists to the many forms of foreignness that research should address and to alliances psychology can make with other disciplines such as anthropology feminism and psychoanalysis Part one explores the origins of the new cultural psychology in social change movements in fields such as ethnography and cultural studies and as a response to evolutionary psychology Part two looks at how people create and sustain the meanings of social categories of class gender race and ethnicity while the third part examines the interaction between written and visual representations in popular culture and everyday lived culture The final part examines the idiosyncratic significance cultural forms have for individuals and their unconscious meanings

The Psychological Development of Girls and Women Sheila Greene, 2014-02-25 In this book Sheila Greene presents a challenging new perspective on the psychological development of girls and women which emphasises the central role of time in human development She critically reviews traditional and contemporary theoretical approaches ranging from orthodox psychoanalysis to relational and post modern theories and argues that even those claiming to be focused on development have presented a view of women s lives as fixed and determined by their nature or their past These theories she believes should be rejected because of their inherent lack of validity and their frequently oppressive implications for women Greene s approach places primary importance on temporality itself and on the competing discourses on time age and development which play an active role in the construction of the lives of girls and women Essential but often neglected insights from the more compelling developmental and feminist theories are woven together within a theoretical framework that emphasises temporality emergence and human agency The result is a liberating theory of women s psychological development as constantly emerging and changing in time rather than as static and fixed by their nature socio cultural context and personal history *The Psychological Development of Girls and Women* will be essential reading for students and researchers in the psychology of women developmental psychology and women s studies

The Politics of Pleasure in Sexuality Education Louisa Allen, Mary Lou Rasmussen, Kathleen Quinlivan, 2013-12-17 Pleasure and desire have been important components of the vision for sexuality education for over 20 years This book argues that there has been a lack of scrutiny over the political motivations that underpin research supportive of pleasure and desire within comprehensive sexuality education In this volume key researchers in the field consider how discourses related to pleasure and desire have been taken up internationally They argue that sexuality education is clearly shaped by specific cultural and political contexts and examine how these contexts have shaped the development of pleasure's inclusion in such programs Via such discussions this volume incites a re configuration of thought regarding sexuality education's approach to pleasure and desire

Psychology at the Turn of the Millennium, Volume 2 Lars Backman, Claes von Hofsten, 2002-04-04 These two volumes represent the cutting edge of contemporary theory and research in psychological science Based on the keynote and state of the art lectures from the 27th International Congress of Psychology the volumes feature a collection of chapters written by international leaders in psychological scholarship The chapters reflect the diversity of current research topics in psychology where old boundaries have become obsolete and subdivisions from the past merge to form new objects of study Volume 1 addresses cognitive biological and health perspectives It includes sections on the neural mechanisms underlying psychological processes the core areas in experimental psychology perception attention learning and memory the multiple aspects of psychological health the interaction between cognitive and emotional processes and higher cognitive processes with special focus on decision making and language Volume 2 deals with social developmental and clinical perspectives The sections highlight human development across the life span basic and applied issues in personality emotion and clinical psychology social psychology ranging from experimental work through social constructivism and gender

Gender, Media, Sport Susanna Hedenborg, Gertrud Pfister, 2017-10-02 Despite the position that sport occupies at the centre of public attention and despite the billions of consumers and immense coverage which it attracts from around the globe it seems that the media prioritise coverage of only a very small fraction of sporting events and a few prominent athletes It goes without saying that sport in the media is dominated by men they are a large majority among athletes consumers journalists and

producers This book will shed new light on the long discussed question of gendered sporting coverage in an era when the Olympics can be dubbed the women's games Some of the contributions present new perspectives such as the relationship between media and sport in Poland media presentations of men and women in gender adequate and inadequate sports competition between women and men participating in the same events the presentation of celebrities and the framing of doping within the context of gender relations Furthermore the book focuses not only on athletes sports and events but also on consumers such as hooligans and their brand of masculinity and on journalists such as Mike Penner who attempted to transgress gender boundaries This book was originally published as a special issue of Sport in Society
