stronger marriage but also eventually a higher income Ironically passing up that second paycheck frees up time to guide your husband to the kinds of professional triumphs that are money multipliers creating long sought financial freedom for your family Far from being homemaking June Cleavers the women Basham investigates are firebrands with skills ranging from public relations and accounting to executive decision making Many have pedigreed educations While they were in the working world what these women longed for was not a life of lunching and spa days but rather time to reflect and the comfort of being part of a joint family mission For these trust their gut women searching for intellectual satisfaction and serenity the answer was to help their husbands achieve a professional dream To show how it is possible to have it all Basham profiles a wide range of wives not just those whose husbands like former Time Warner CEO Dick Parsons and Amazon founder Jeff Bezos have risen to national prominence but those whose husbands have triumphed outside the limelight Each of these women it turns out has led a richly satisfying life partly achieved by assuring her husband s success One of the most provocative and convincing books ever written on the topic of women and work a manual that with its precise tips will speed women toward the balance they seek *Beside Every Successful Man* doesn t just tell women what to do it shows them how in a way that is inspirational *The Guidebook To Securing High Profile Internships* Dalvin Josias Sejour,2019-09-16 There are thousands of books out there that talk about how to climb the corporate ladder and hundreds more that talk about ways to make it to the top However there are little to none that talk about the ins and outs of starting a career such as navigating uncertainty securing internships networking battling with imposter syndrome pivoting careers entirely and many other gems that get lost in exaggerated stories on people far removed from you This book is not fiction or click bait It is a real story about my life and how I got started off in my career while literally starting from scratch with no industry connections By making a plan taking a few leaps of faith trying something new and being my authentic self I was able to go from stocking shelves at a local grocery store to securing 7 internships in my field both in the US and abroad doing what I love the most As CEO of Dalvin Digital Design and a full time Software Engineer I Dalvin Sejour will go through a step by step guide to replicate my early career success through my riveting real and informational narrative After graduating from high school it seems like the world has an unrealistic expectation that you need to have everything figured out by the time you throw your cap in the air at graduation Whether you are deciding to go to college went straight into the workforce graduated or have started work and looking to pivot careers this easy to follow guide through my lenses has something to offer you
