Except for Soviet citizens no people in this century have endured so much mass killing as have the Chinese They have been murdered by rebels conniving with their own rulers and then after the defeat in war of the imperial dynasty by soldiers of other lands They have been killed by warlords who ruled one part of China or another They have been executed by Nationalists or Communists because they had the wrong beliefs or attitudes or were simply in the wrong place at the wrong time In China s Bloody Century R J Rummel s careful estimate of the total number of killings exceeds 5 million How do we explain such killings crossing ideological bounds and political conditions According to Rummel the one constant factor in all the Chinese mass murder as it was in the Soviet Union and Nazi Germany is arbitrary power It was the factor that united warlords Nationalists Communists and foreign armies The author argues that whenever such undisciplined power is centralized and unchecked the possibility exists that it will be used at the whim of dictators to kill for their own ends whether the aim is ethnic racial purity national unity development or utopia The book presents successive periods in modern Chinese history with each chapter divided into three parts Rummel first relates the history of the period within which the nature and the amount of killings are presented He then provides a detailed statistical table giving the basic estimates with their sources and qualifications The final part offers an appendix that explains and elaborates the statistical computations and estimates While estimates are available in the literature on the number of Chinese killed in Communist land reform or in Tibet or by the Nationalists in one military campaign or another until this book no one has tried to systematically accumulate organize add up and analyze these diverse killings for all of China s governments in this century For **The Making of Modern Tibet** A.Tom Grunfeld,2015-02-24 An account of Tibet and the Tibetan people that emphasises the political history of the 20th century This book attempts to reach beyond the polemics by considering the various historical arguments using archival material from several nations and drawing conclusions focused on available documents *Religion, Politics and Ideology in the Third Reich* Uriel Tal,2004 In a perceptive analysis of diverse source material the essays of the late Uriel Tal in this volume uncover the dynamics of the secularization of religion and the sacralization of politics in the Nazi era Through a process of inversion of meaning concepts such as race blood soil state nation and Führer were brought into the realm of faith mission salvation sacredness and myth thereby acquiring absolute significance Within this Nazi worldview the Jew epitomised the arch enemy both as a symbol and as the concrete embodiment of all that Nazism sought to negate Western civilisation monotheism critical rationalism and humanism The Dalai Lama Charles George,2009-12-04 According to a Harris poll the Dalai Lama was among the most popular world leaders to Americans in 2013 Enthroned during the Battle of Chamdo in 1950 the Dalai Lama was forced to flee to India in 1959 during the Tibetan Uprising This compelling edition provides a balanced biographical overview of the fourteenth Dalai Lama Tenzin Gyatso Chapters discuss the life of this teacher lecturer religious and spiritual leader International Politics ,1960 **Firearms Law and the Second Amendment: Regulation, Rights, ...** , **Communist China** United States.
