Geographies Of Girlhood:

Geographies of Girlhood Pamela J. Bettis, Natalie G. Adams, 2005-03-23 *Geographies of Girlhood Identities In Between* explores how adolescent girls come to understand themselves as female in this culture particularly during a time when they are learning what it means to be a woman and their identities are in between that of child and adult girl and woman It illuminates the everyday realities of adolescent girls and the real issues that concern them rather than what adult researchers think is important to adolescent girls The contributing authors take seriously what girls have to say about themselves and the places and discursive spaces that they inhabit daily Rather than focusing on girls in the classroom the book explores adolescent female identity in a myriad of kid defined spaces both in between the formal design of schooling as well as outside its purview from bedrooms to school hallways to the Internet to discourses of cheerleading race sexuality and ablebodiedness These are the geographies of girlhood the important sites of identity construction for girls and young women This book is situated within the fledgling field of Girls Studies All chapters are based on field research with adolescent girls and young women hence the voices of girls themselves are primary in every chapter All of the authors in the text use the notion of liminality to theorize the in between spaces and places of schools that are central to how adolescent girls construct a sense of self The focus of the book on the fluidity of femininity highlights the importance of race class sexual orientation and other salient features of personal identity in discussions of how girls construct gendered identities in different ways *Geographies of Girlhood Identities In Between* challenges scholars professionals and students concerned with gender issues to take seriously the everyday concerns of adolescent girls It is recommended as a text for education sociology and women s studies courses that address these issues

Geographies of Girlhood ,2005 **Geographies of Girlhood in US Latina Writing** Andrea Fernández-García, 2019-12-20 This book is an in depth study of Latina girls portrayed in five coming of age narratives by using spaces and places as hermeneutical tools The texts under study here are Julia Alvarez s *Return to Sender* 2009 Norma E Cant s *Can cula Snapshots of a Girlhood en la Frontera* 1995 Mary Helen Ponce s *Hoyt Street An Autobiography* 1993 and Esmeralda Santiago s *When I Was Puerto Rican* 1993 and *Almost a Woman* 1998 Unlike most representations of Latina girls which are characterized by cultural inaccuracies tropes of exoticism and a tendency to associate the host society with modernity and their girls cultures of origin with backwardness and oppression these texts contribute to reimagining the social differently from what the dominant imagery offers By illustrating the vexing phenomena the characters have to negotiate on a daily basis such as racism sexism and displacement these narratives open avenues for a critical exploration of the legacies of colonial modernity This book therefore not only enables an analysis of how the girls development is shaped by these structures of power but also shows how such legacies are reversed as the characters negotiate their identities It breaks with the longstanding characterization of young people and especially Latina girls as voiceless and deprived of agency showing readers that this youth group also has say in controlling their lifeworlds

Methodologies for Mapping a Southern African Girlhood in the Age of Aids Relebohile Moletsane, Ann Smith, Linda Chisholm, 2008-01-01 Methodologies for Mapping a Southern African Girlhood in the Age of Aids is located within the new and broader area of Girlhood Studies Girls have long been considered a rich feminist memory site for examining the genesis of women's sense of self in the developed world To date however only a few scholars have focused on Southern African girlhoods Even fewer focus on methodologies for researching girlhood This is despite the particular vulnerability of girls to gender based violence and HIV and Aids and the relative complexity of doing research with girls in diverse cultural contexts in this region Thus the book aims to take this agenda forward and to investigate a range of participatory methodological and theoretical approaches that can be adapted to study girls and girlhood in Southern Africa These methodologies which look at research with girls about girls and for girls include policy research writing fictional practice and visual arts based methods to be used as analytical tools that should can and have been used to examine the lives of girls particularly in the age of HIV and Aids in Southern Africa

Girlhood and the Politics of Place Claudia Mitchell, Carrie Rentschler, 2016 Examining context specific conditions in which girls live learn work play and organize deepens the understanding of place making practices of girls and young women worldwide Focusing on place across health literary and historical studies art history communications media studies sociology and education allows for investigations of how girlhood is positioned in relation to interdisciplinary and transnational research methodologies media environments geographic locations history and social spaces This book offers a comprehensive reading on how girlhood scholars construct and deploy research frameworks that directly engage girls in the research process
