Geometry Of Love:

Geometry of Love Margaret Visser, 2002 **Geometry Of Love** Margaret Visser, 2012-06-26 Visser spins a fascinating and detailed web of mythology history early Christian theology Roman culture and contemporary practice as she unfolds the layers of meaning in the architecture of the small but ancient Christian church of St Agnes in Rome She enables the reader to discover the meanings expressed by any church anywhere The *Geometry of Love* was made into a prize winning documentary film The Geometry of Love Jessica Levine, 2025-07-30 An outstanding first novel Booklist starred review Why is it easier for a woman to be a muse than to have one Can one be fully creative in art or life without the inspiration of erotic love These are the questions asked in *The Geometry of Love* a novel set in New York in the 1980s then fast forwarding to Northern California 20 years later Julia an aspiring poet is living with her British boyfriend Ben a restrained professor at Princeton when she has a chance meeting with Michael a long ago friend A charismatic composer Michael was once a catalyzing muse for her but now returns as a destabilizing influence Julia longs to become involved with Michael but hesitates to give up the security of her relationship with Ben When Michael signals he is too wounded to make a commitment Julia turns her triangular situation into a square by setting him up with a cousin In the process she discovers as Pascal once said that the heart has its reasons which reason does not know This deeply psychological tale explores the surprising ways we make romantic choices *The Geometry of Love* is the second novel in Jessica Levine's *The Cousin Series* It can be read after *Three Cousins* or as a standalone *The Geometry of Love Between the Elements* Fíona Bolger, Antain Mac Lochlainn, Aleksandra Kubiak, R. Vatsala, 2013 Love and Russian Literature Ira Nadel, 2023-11-30 Russia haunted the British cultural imagination throughout the 20th century whether as a romantic source of literary and political inspiration or as a warning of creeping totalitarianism In this new book Ira Nadel charts the story of that influence through the work of some of the key figures in British literature across the century including Joseph Conrad Somerset Maugham Jane Harrison Virginia Woolf and H G Wells Framed by the story of two romantic encounters between Walter Benjamin and the actress Asja László in Moscow in 1926 and between Isaiah Berlin and Anna Akhmatova in 1945 *Love and Russian Literature* casts a vivid new light on the ways in which responses to Russia shaped the history of British modernism **Geometry of love** , 2018 **The Physics of Emotion, Love and Intimate Connection** Dr I Pearson, 2025-08-10 I explore the hidden physical mechanisms behind our most human experiences emotion bonding intimacy and the feeling of connection with others Drawing on Stein Theory this book shows how real physics processes work together to create conscious emotional states Love trust and group belonging are revealed not as abstract feelings but as structured events in matter uniting brain body and environment into a single moment of awareness I cover the physics of proximity kissing long term bonding grief empathy group emotion culture and even spiritual experience all grounded in hard science without metaphysics or psychic claims I explain how subtle physical biasing between nearby minds can influence mood and timing why rituals and shared activities feel powerful and how

intimacy leaves lasting structural imprints in both memory and tissue Beckett, Lacan and the Mathematical Writing of the Real Arka Chattopadhyay,2019-01-01 Beckett Lacan and the Mathematical Writing of the Real proposes writing as a mathematical and logical operation to build a bridge between Lacanian psychoanalysis and Samuel Beckett's prose works Arka Chattopadhyay studies aspects such as the fundamental operational logic of a text use of mathematical forms like geometry and arithmetic the human obsession with counting the moving body as an act of writing and love and sexuality as a challenge to the limits of what can be written through logic and mathematics Chattopadhyay reads Beckett's prose works including *How It Is* *Company* *Worstward Ho* *Malone Dies* and *Enough* to highlight this terminal writing which halts endless meanings with the material body of the word and gives Beckett a medium to inscribe what cannot be written otherwise

to the entire phenomenon of love both as a bodily passion and an act of the will The purpose is to present the Thomistic and broadly scholastic account of human and divine love from a philosophical and theological perspective It aims to be a theological and philosophical study of the topic useful both for a graduate professional audience as part of an undergraduate or graduate course and perhaps for the educated reader The thesis of the book is that contrary to contemporary conceptions not all loves are created equal Some loves perfect us and some loves corrupt us The worth of a love depends on its object and end St Thomas thus presents an objective and teleological account of human and divine love that is of philosophical and theological interest The method is broadly exegetical presenting a careful reading of the text and supplying the philosophical and theological background which the text of Aquinas assumes The scope of the work is limited to three questions ST I II qq 26 28 References to interpretative disputes of Aquinas and references to further resources in the secondary literature will be mostly limited to the footnotes making the body of the text accessible to more readers
