

Preparing for Geometry

Objective 1 Prepare yourself to learn from geometry lessons. Review and strengthen all necessary skills.

- Review the skills you will be using in Objective 1, including:
 - identifying angles, segments, and points in two chapters; the words that you have previously learned for naming lines, rays, and planes
- As you work through the text, you may find that there are topics you need to review. Write the necessary concepts and definitions down as you read.
- Use this chapter for reference. When you need something, look for it there first. If you need to look it up more than once, it may be worth writing it down.
