Genius of Place Justin Martin, 2011-06-03 This definitive first full scale biography of Olmsted famed designer of New York's Central Park reveals him also as a brilliant political and social reformer

The Art of Ruskin and the Spirit of Place John Dixon Hunt, 2020-10-14 English art critic John Ruskin was one of the great visionaries of his time and his influential books and letters on the power of art challenged the foundations of Victorian life He loved looking Sometimes it informed the things he wrote but often it provided access to the many topographical and cultural topics he explored rocks plants birds Turner Venice the Alps In *The Art of Ruskin and the Spirit of Place* John Dixon Hunt focuses for the first time on what Ruskin drew rather than wrote offering a new perspective on Ruskin's visual imagination Through analysis of more than 150 drawings and sketches many reproduced here he shows how Ruskin's art shaped his writings his thoughts and his sense of place

Faith and Place Mark R. Wynn, 2009-05-07 *Faith and Place* takes knowledge of place as a basis for thinking about the relationship between religious belief and our embodied life Recent epistemology of religion has appealed to various secular analogues for religious belief especially analogues drawn from sense perception and scientific theory construction These approaches tend to overlook the close connection between religious belief and our moral aesthetic and otherwise engaged relationship to the material world By taking knowledge of place as a starting point for religious epistemology Mark Wynn aims to throw into clearer focus the embodied action orienting perception structuring and affect infused character of religious understanding This innovative study understands the religious significance of a site in terms of i its capacity to stand for some encompassing truth about human life ii its conservation of historical meanings where these meanings make a practical claim upon those located at the place at later times and iii its directing of the believer's attention to a sacred meaning through enacted appropriation of the site Wynn proposes that the notion of God functions like the notion of a genius loci where the relevant locus is the sum of material reality He argues that knowledge of God consists in part in a storied and sensuous appreciation of the significance of particular places

Place Tim Cresswell, 2014-08-29 Thoroughly revised and updated this text introduces students of human geography and allied disciplines to the fundamental concept of place combining discussion about everyday uses of the term with the complex theoretical debates that have grown up around it A thoroughly revised and updated edition of this highly successful short introduction to place Features a new chapter on the use of place in non geographical arenas such as in ecological theory art theory and practice philosophy and social theory Combines discussion about everyday uses of the term place with the more complex theoretical debates that have grown up around it Uses familiar stories drawn from the news popular culture and everyday life as a way to explain abstract ideas and debates Traces the development of the concept from the 1950s through its subsequent appropriation by cultural geographers and the linking of place to politics

Emory

as Place Gary S. Hauk, 2019-08-01 Universities are more than engines propelling us into a bold new future They are also living history A college campus serves as a repository for the memories of countless students staff and faculty who have passed through its halls The history of a university resides not just in its archives but also in the place itself the walkways and bridges the libraries and classrooms the gardens and creeks winding their way across campus To think of Emory as place as Hauk invites you to do is not only to consider its geography and its architecture the lay of the land and the built up spaces its people inhabit but also to imagine how the external constructed world can cultivate an internal world of wonder and purpose and responsibility in short how a landscape creates meaning Emory as Place offers physical though mute evidence of how landscape and population have shaped each other over decades of debate about architecture curriculum and resources More than that the physical development of the place mirrors the university's awareness of itself as an arena of tension between the past and the future even between the past and the present between what the university has been and what it now purports or intends to be through its spaces Most of all thinking of Emory as place suggests a way to get at the core meaning of an institution as large diverse complex and tentacled as a modern research university **The Power of Place** Tom Vander Ark, Emily Liebttag, Nate McClennen, 2020-03-09 Place is where we're from it's where we're going It asks for our attention and care If we pay attention place has much to teach us With this belief as a foundation **The Power of Place** offers a comprehensive and compelling case for making communities the locus of learning for students of all ages and backgrounds Dispelling the notion that place based education is an approach limited to those who can afford it the authors describe how schools in diverse contexts urban and rural public and private have adopted place based programs as a way to better engage students and attain three important goals of education student agency equity and community This book identifies six defining principles of place based education Namely it 1 Embeds learning everywhere and views the community as a classroom 2 Is centered on individual learners 3 Is inquiry based to help students develop an understanding of their place in the world 4 Incorporates local and global thinking and investigations 5 Requires design thinking to find solutions to authentic problems 6 Is interdisciplinary For each principle the authors share stories of students whose lives were transformed by their experiences in place based programs elaborate on what the principle means demonstrate what it looks like in practice by presenting case studies from schools throughout the United States and offer action steps for implementation Aimed at educators from preK through high school **The Power of Place** is a definitive guide to developing programs that will lead to successful outcomes for students more fulfilling careers for teachers and lasting benefits for communities **Spirits of Place in American Literary Culture** John Gatta, 2018 What might it mean existentially and spiritually to form an intimate relation with discrete places on earth This book offers a uniquely integrative perspective on the matter Centered on analyzing US literatures it reflects a theological phenomenology cognizant of the spiritualities grounded in First Nature as well as settled spaces **The Intelligence of Place** Jeff Malpas, 2015-10-22 Place has become a widespread concept in

contemporary work in the humanities creative arts and social sciences Yet in spite of its centrality place remains a concept more often deployed than interrogated and there are relatively few works that focus directly on the concept of place as such The Intelligence of Place fills this gap providing an exploration of place from various perspectives encompassing anthropology architecture geography media philosophy and the arts and as it stands in relation to a range of other concepts Drawing together many of the key thinkers currently writing on the topic The Intelligence of Place offers a unique point of entry into the contemporary thinking of place into its topographies and poetics providing new insights into a concept crucial to understanding our world and ourselves

A Dangerous Place Robin Herne, 2013-11-07 Magic and murder meet in Suffolk with short stories exploring the spirit of place and the dark side of belief A Dangerous Place is an anthology of crime stories all set in the same place but spread out over the course of two thousand years Each crime is set against the backdrop of changing religious and magical mystical beliefs such as Iron Age Druidry Anglo Saxon Heathenry Victorian Spiritualism modern neo paganism and interweaves old fashioned detection with mysticism and criminal psychology

The Place of Media Power Nick Couldry, 2002-01-04 This fascinating study focuses on an area neglected in previous studies of the media the meetings between ordinary people and the media Couldry explores what happens when people who normally consume the media witness media processes in action or even become the object of media attention themselves

The Routledge Handbook of Literature and Space Robert Tally Jr., 2017-01-06 The spatial turn in literary studies is transforming the way we think of the field The Routledge Handbook of Literature and Space maps the key areas of spatiality within literary studies offering a comprehensive overview but also pointing towards new and exciting directions of study The interdisciplinary and global approach provides a thorough introduction and includes thirty two essays on topics such as Spatial theory and practice Critical methodologies Work sites Cities and the geography of urban experience Maps territories readings The contributors to this volume demonstrate how a variety of romantic realist modernist and postmodernist narratives represent the changing social spaces of their world and of our own world system today

Organic Philosophy; Or, Man's True Place in Nature by Hugh Doherty , 1867

The Stanford Dictionary of Anglicised Words and Phrases Charles August Maude Fennell, 1892

Re-writing Spatiality Britta Kuhlenbeck, 2010 The objective of this project is to encourage new ways of thinking about the meaning and significance of space It follows a desire that has been expressed and theorized by Henri Lefebvre and by extension Edward W Soja to remove Spatiality from the margin of the Trialectics of Being and to bring it into the Trialectics fold alongside with and of at least equal significance to Historicity and Sociality The thesis focuses on how space of the Pilbara region in Western Australia is produced in contemporary Australian writing film art and through lived experience The thesis argues for an understanding of space as essentially dynamic

Inventing Place Casey Boyle, Jenny Rice, 2018-04-30 This book offers a sustained but varying examination of the spatial temporal dynamics that compose place Essays blend personal and scholarly accounts of Texas sites examining place as a creation formed through the collaboration

of a body with a particular space **Planning and Place in the City** Marichela Sepe, 2013-03-05 Under the influence of globalization the centres of many cities in the industrialised world are losing their place identity the set of cultural markers that define a city's uniqueness and make it instantly recognisable A key task for planners and residents working together is to preserve that unique sense of place without making the city a parody of itself In *Planning and Place in the City* Marichela Sepe explores the preservation reconstruction and enhancement of cultural heritage and place identity She outlines the history of the concept of placemaking and sets out the range of different methods of analysis and assessment that are used to help pin down the nature of place identity This book also uses the author's own survey based method called PlaceMaker to detect elements that do not feature in traditional mapping and identifies appropriate planning interventions Case studies investigate cities in Europe North America and Asia which demonstrate how surveys and interviews can be used to draw up an analytical map of place identity This investigative work is a crucial step in identifying cultural elements which will influence what planning decisions should be taken in the future The maps aim to establish a dialogue with local residents and support planners and administrators in making sustainable changes The case studies are amply illustrated with survey data sheets photos and coloured maps Innovative and broad based *Planning and Place in the City* lays out an approach to the identification and preservation of place and cultural heritage suitable for students academics and professionals alike

Place, Time, and Being in Japanese Architecture Kevin Nute, 2004 In addition to highlighting the human benefits of built environments which relate to particular place time and being many of the Japanese buildings examined illustrate practical strategies for revealing these universal parameters which are equally applicable beyond Japan It is suggested that wider use of some of these approaches could not only help to sustain both environmental and cultural identities against the homogenising effects of globalisation but also has the potential to heighten our appreciation of the peculiar condition of being here now Jacket

Waste and Urban Regeneration Jeong Hye Kim, 2020-11-26 *Waste and Urban Regeneration* examines the Nanjido region of Seoul and its transformation from Nanjido Landfill to the World Cup Park and its relation to the urban ecology within the context of the city's urban development during the late twentieth and early twenty first centuries The study analyses the urban ecological meanings of the site's two distinct forms by consolidating them with the Lefebvrian urban theory and relational ecological theories This book looks at environmental transformations and their link to South Korea's political and economic changes how Seoul City controlled waste populations the borderline characterisations of the inhabited landfill and its community the regeneration of the landfill into the post landfill park and site specific artworks which explored the conflict between the invisible presence of the landfill's garbage and its history As one of the first accounts of a landfill and landfill turned park of South Korea this study is a must read for academics and researchers interested in waste management ecology landscape theory and history
